WE are the Music Makers

Frank honey,
have you seen
my eyepatch?

Hmm, I think
you are already
wearing it

Oh, you
are right!

5 Dollars wasted...

Don't worry, we can pick more of whatever that is on the road there

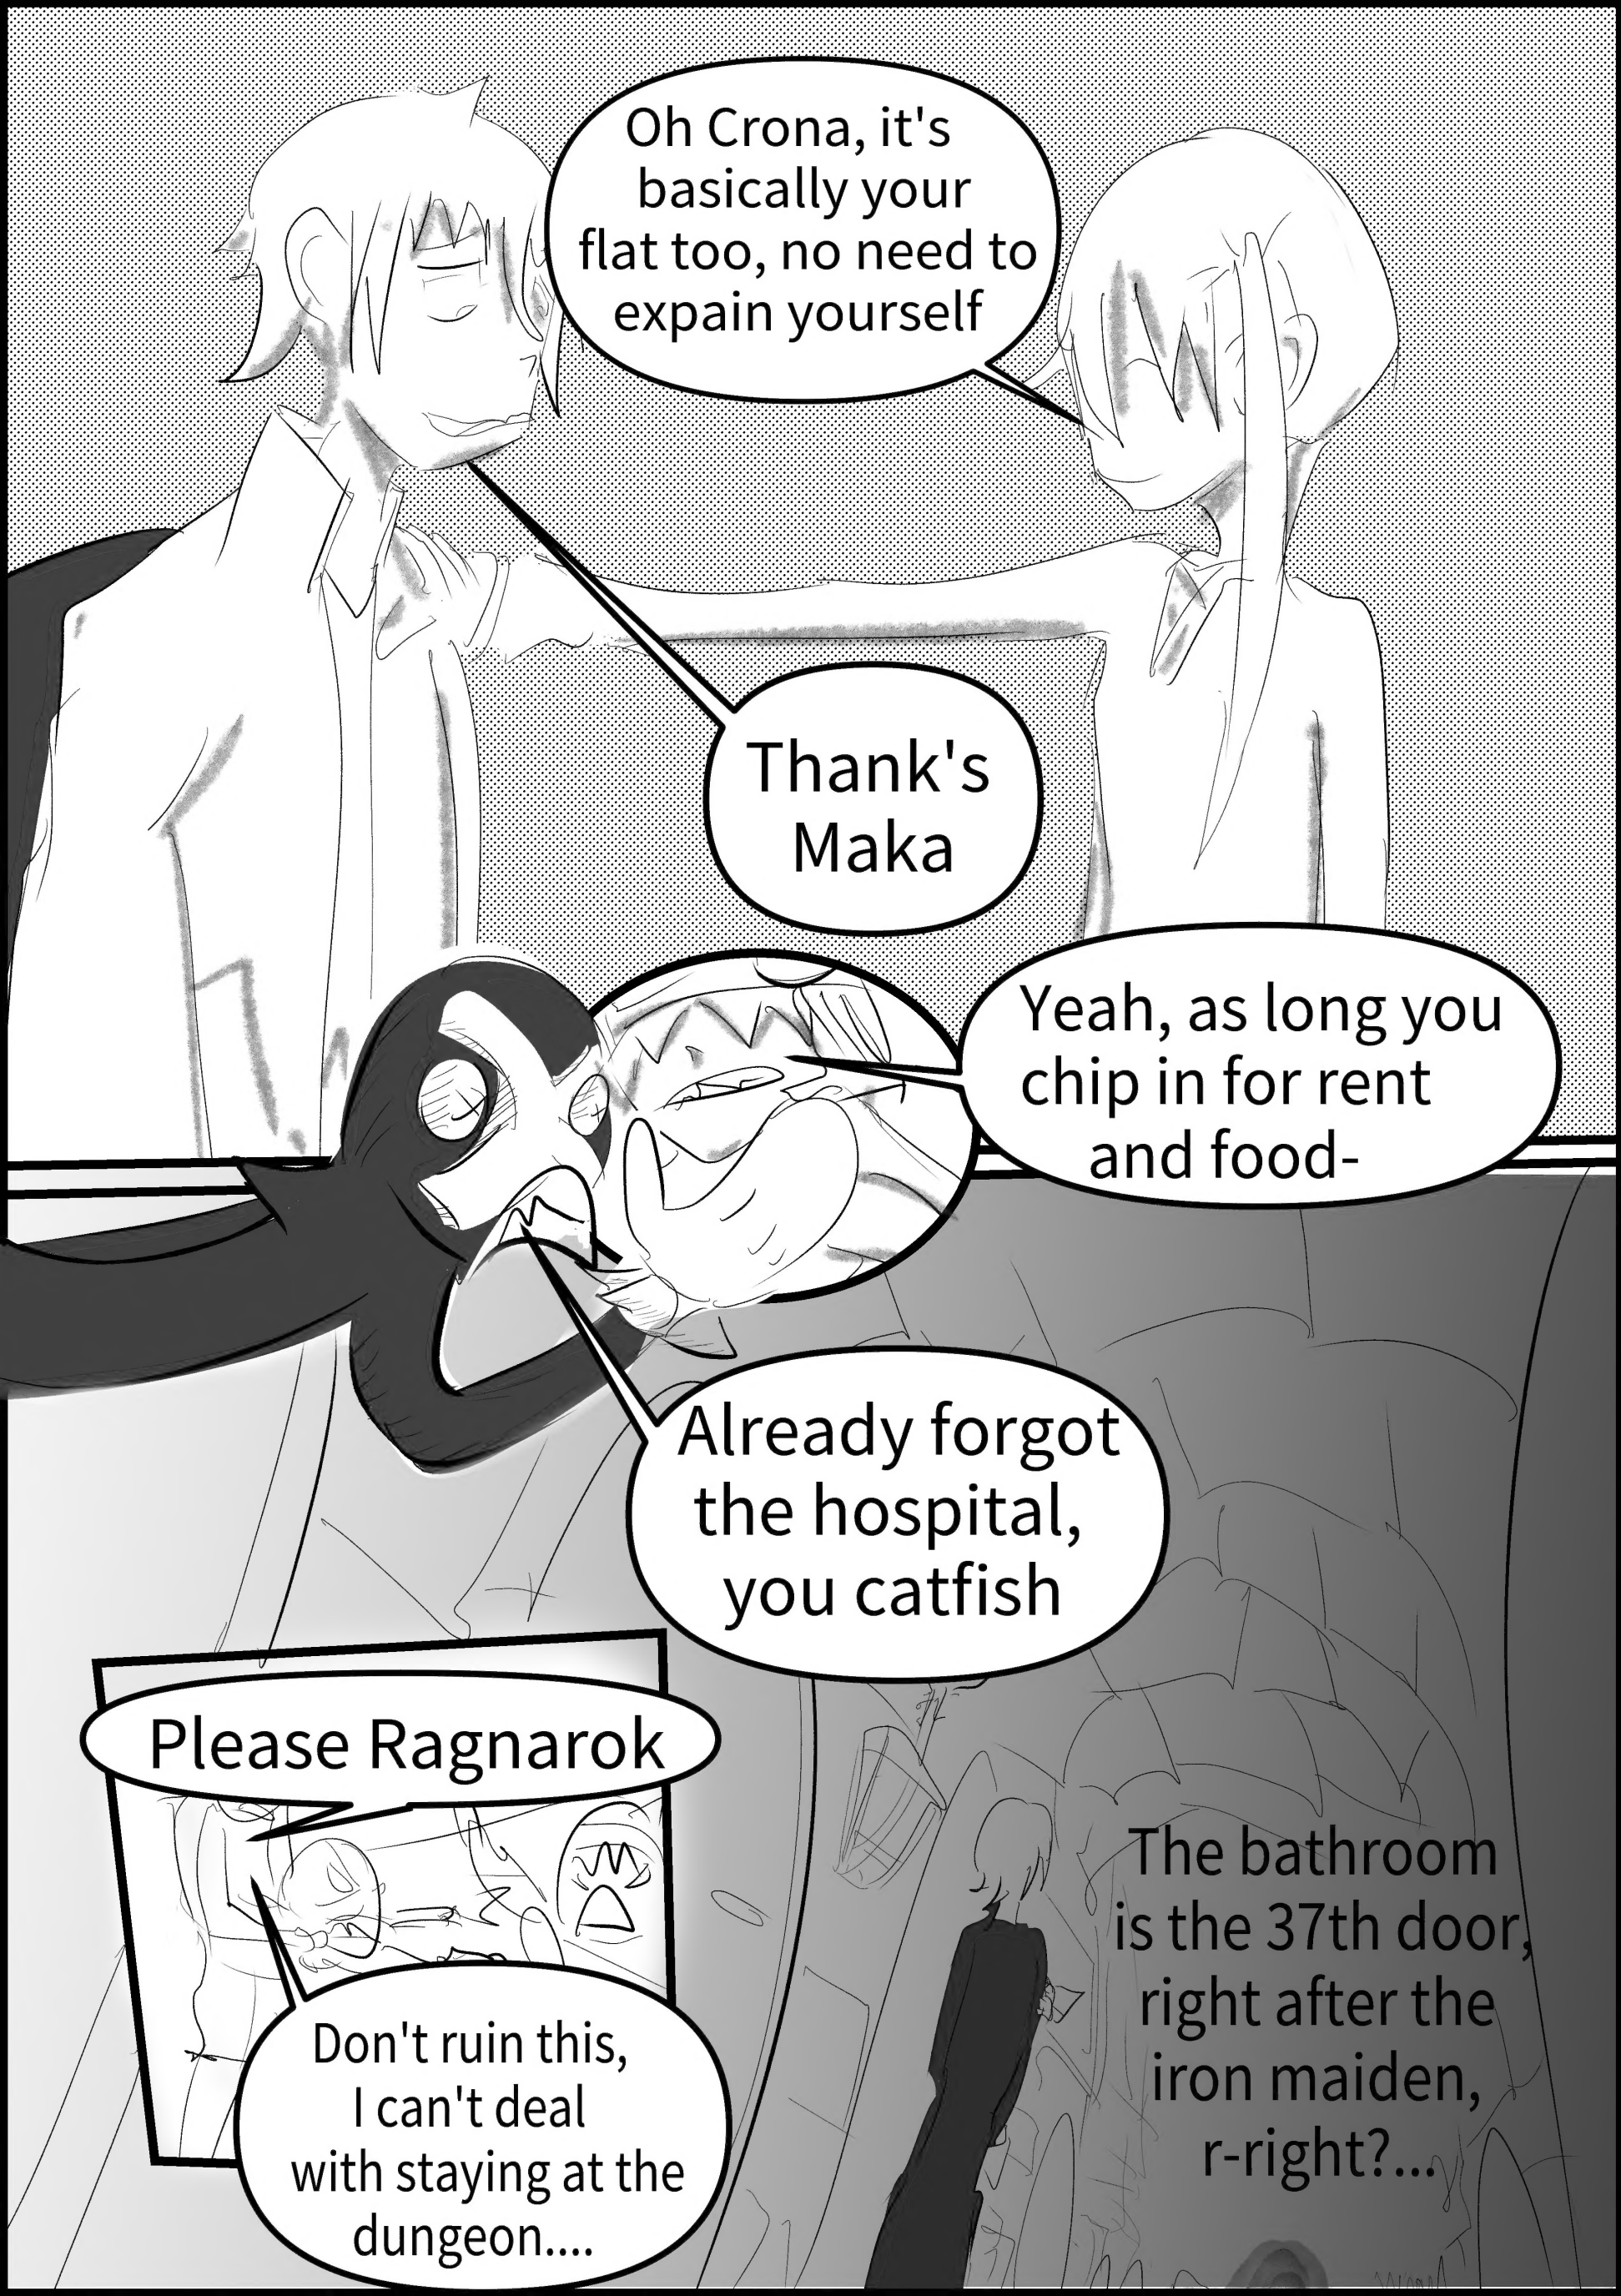

Um-mom, dad- I think Ragnarok caused a gas leak

YOU SNITCH!

-so that's why we are crashing here till it's fixed...

So what was the point of the beginning of the story?

Oh Crona, it's
basically your
flat too, no need to
expain yourself

Thank's
Maka

Yeah, as long you
chip in for rent
and food-

Already forgot
the hospital,
you catfish

Please Ragnarok

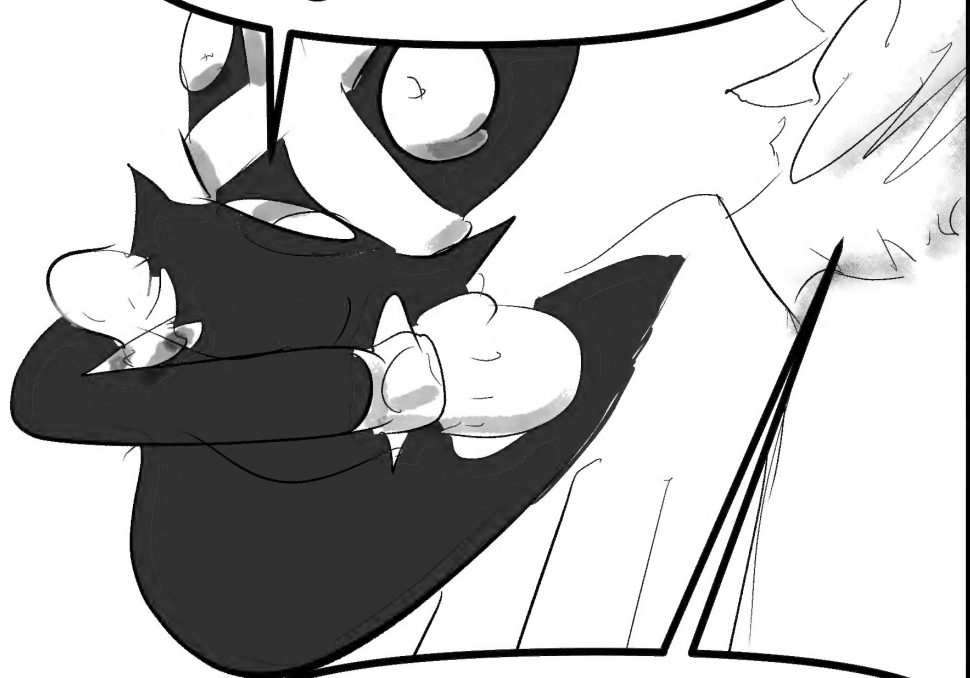

Don't ruin this,
I can't deal
with staying at the
dungeon....

The bathroom
is the 37th door,
right after the
iron maiden,
r-right?...

And I thought getting grounded would teach Ragnarok to behave

First day of freedom, and I'm already getting marginalized, tch...

"Institutionalised"

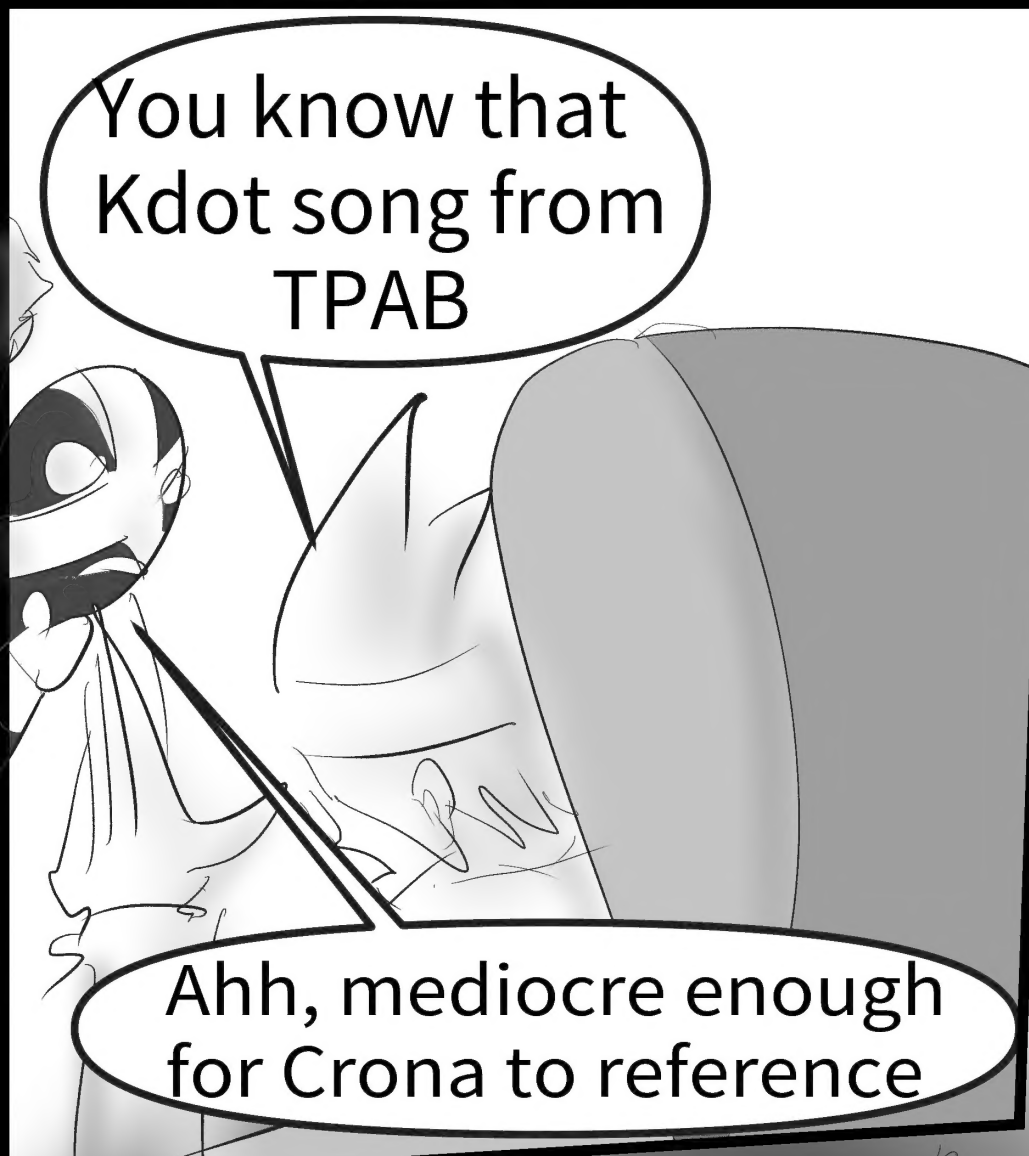

"Institutionalized, I keep runnin' back for a visit"

I don't get it

I-I just thought Ragnarok ment that song for some reason and-

What?

You know that
Kdot song from
TPAB

Ahh, mediocre enough
for Crona to reference

t-t-pac- what-

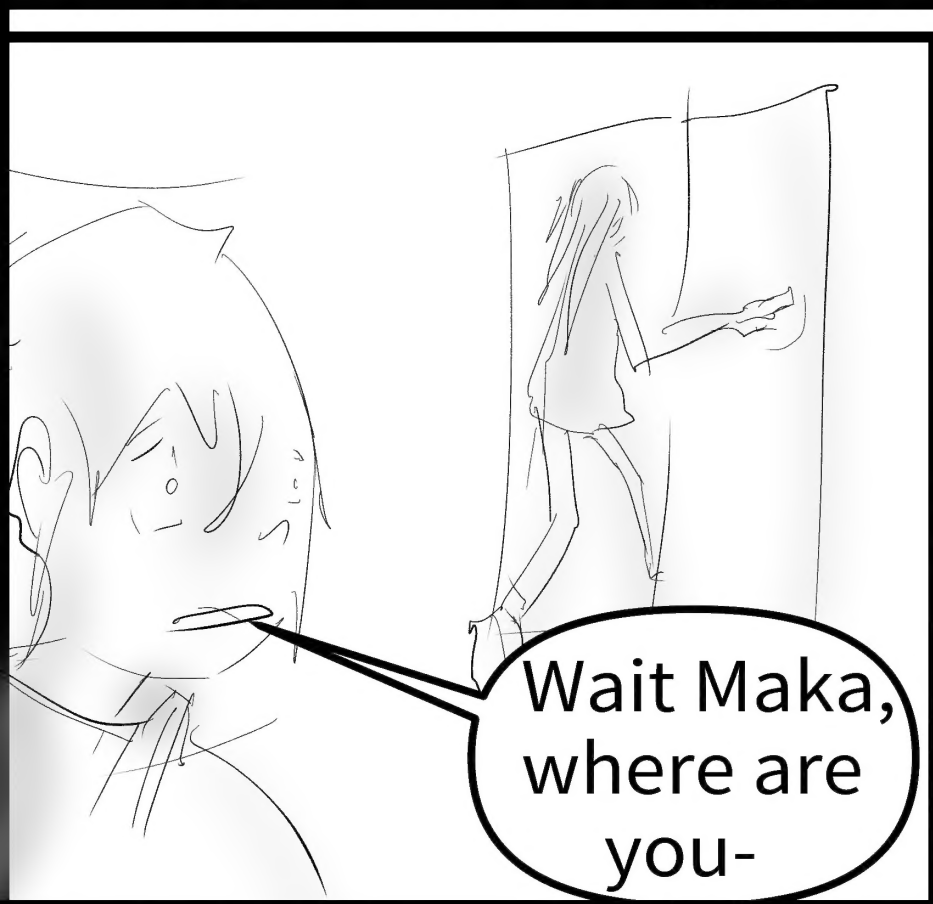

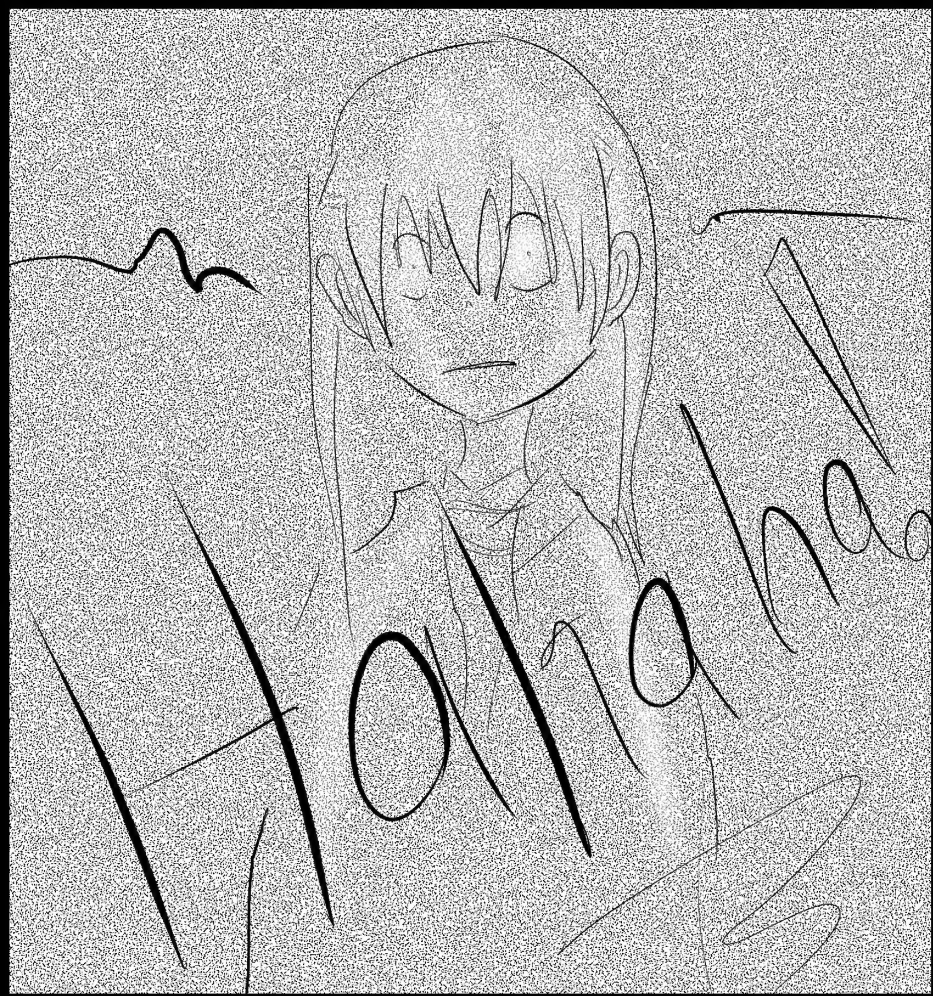

Oh right

I forgot

Maka is more clueless
about music than kids
that bitch about
top 40 hits

Like if
she was
bothered by
it

She would
have told
us in her
usual way

Well, if it's just
friendly banter,
it must be ok...

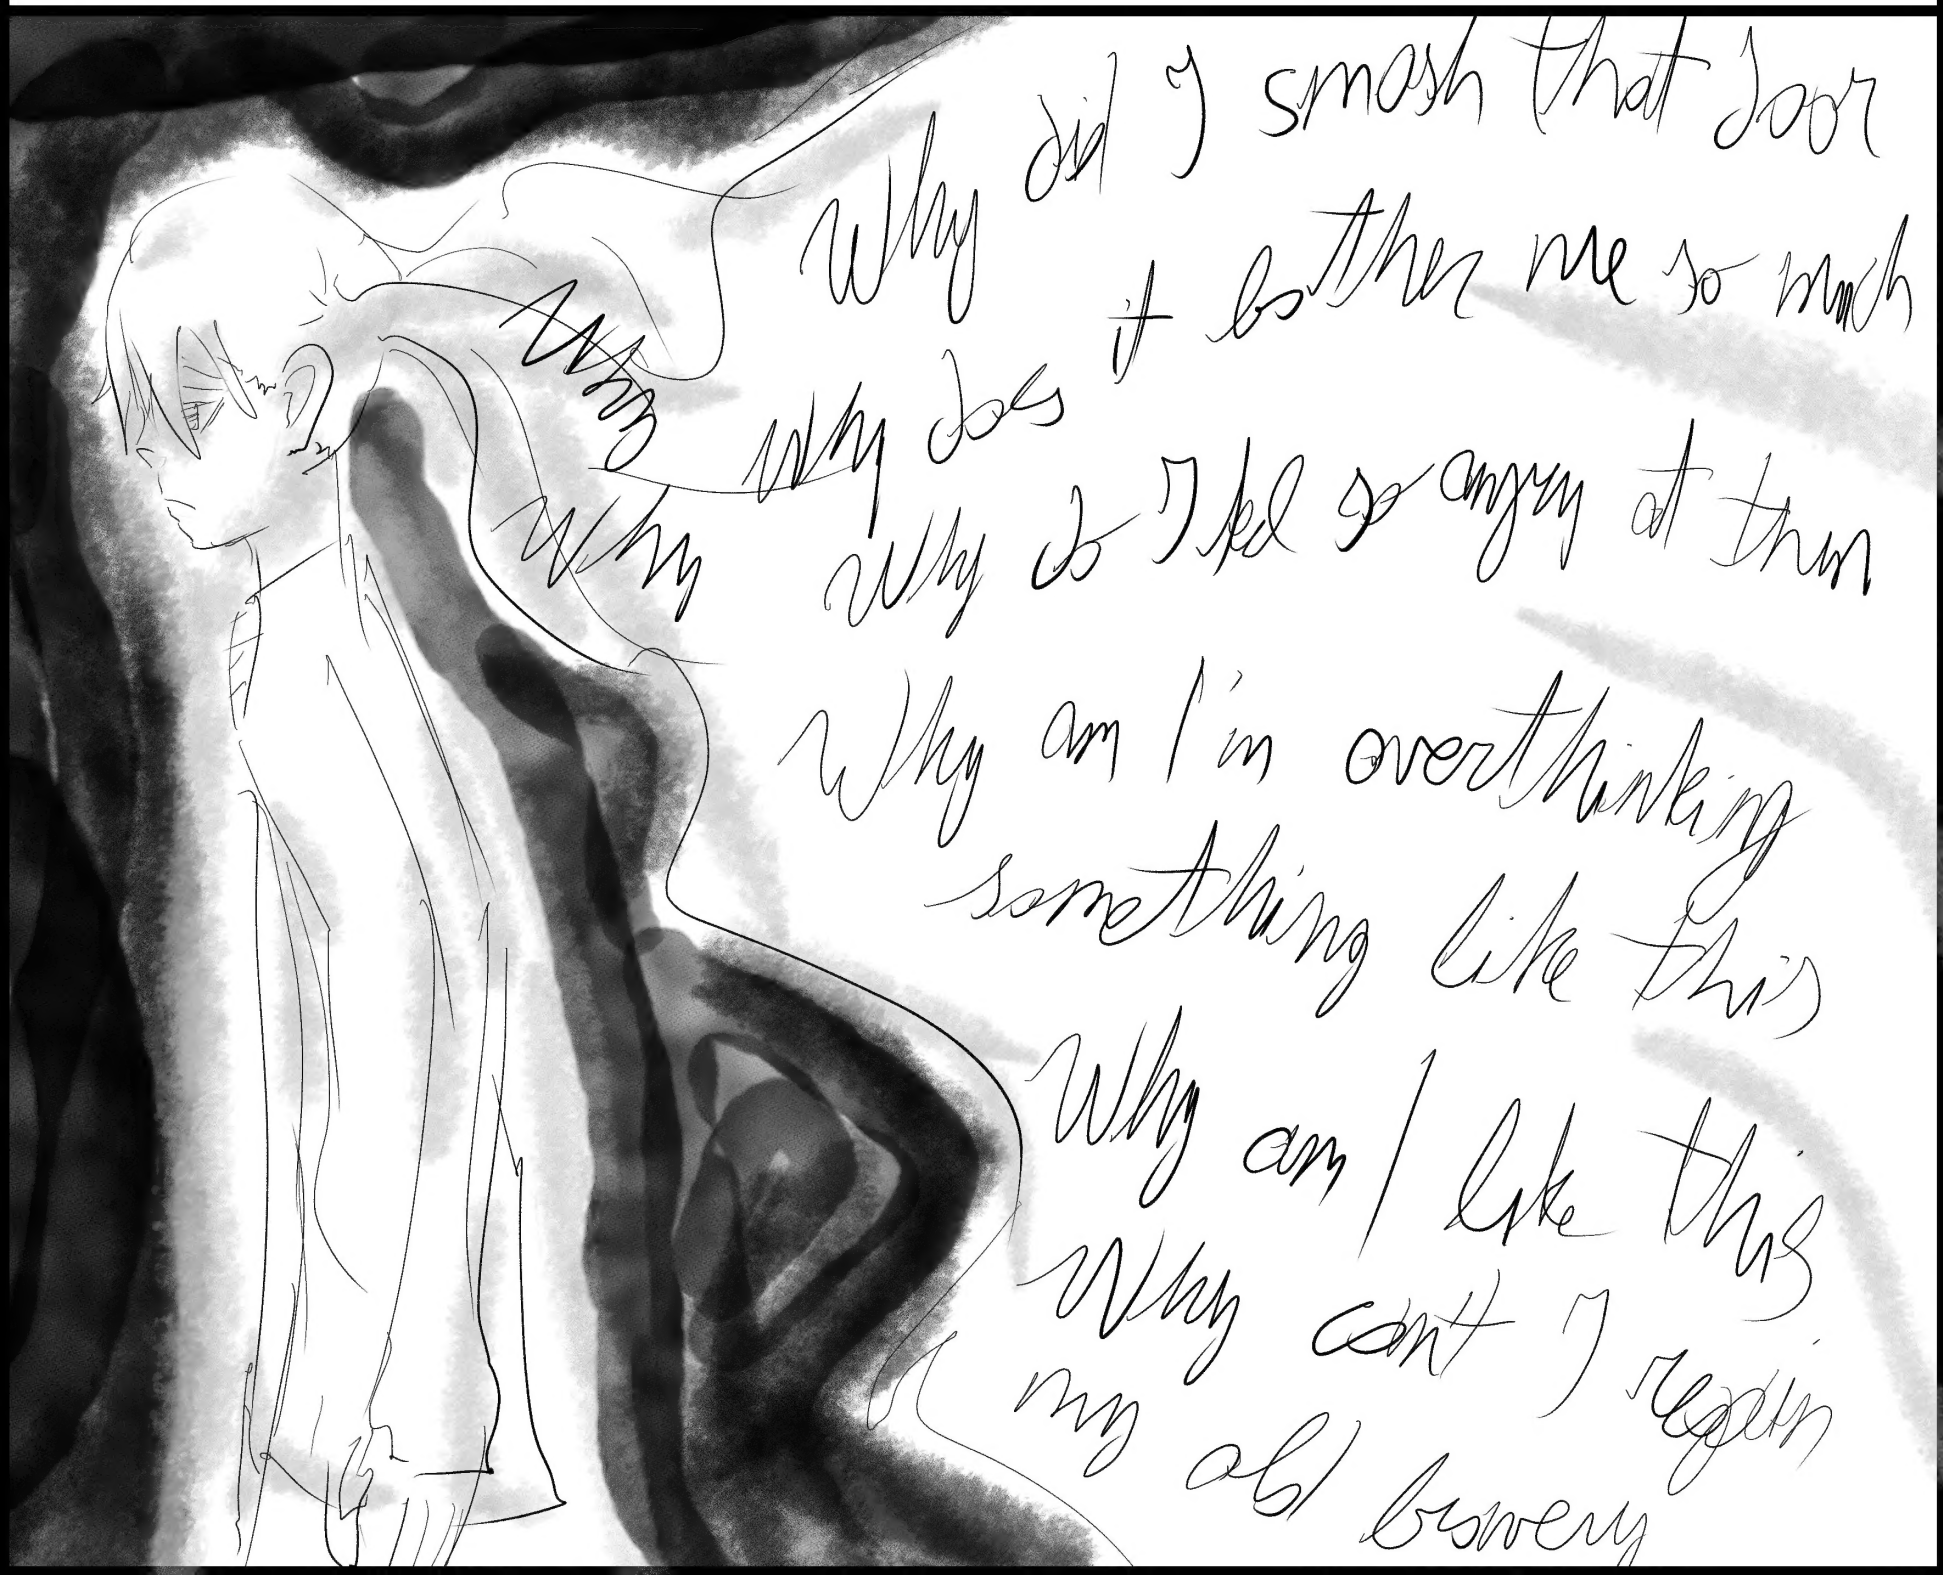

Yeah, it's like
me torturing
you, fun for
everybody!

Yeah, everybody
just goofing around

It really is, I know
her too well...

Like she never cared for
music, so it's all cool

Why did I smash that door
Why does it bother me so much
Why do I feel so angry at them
Why am I overthinking
something like this
Why am I like this
Why can't I regain
my old bravery

Strange, why don't
I feel like going to
the library anymore

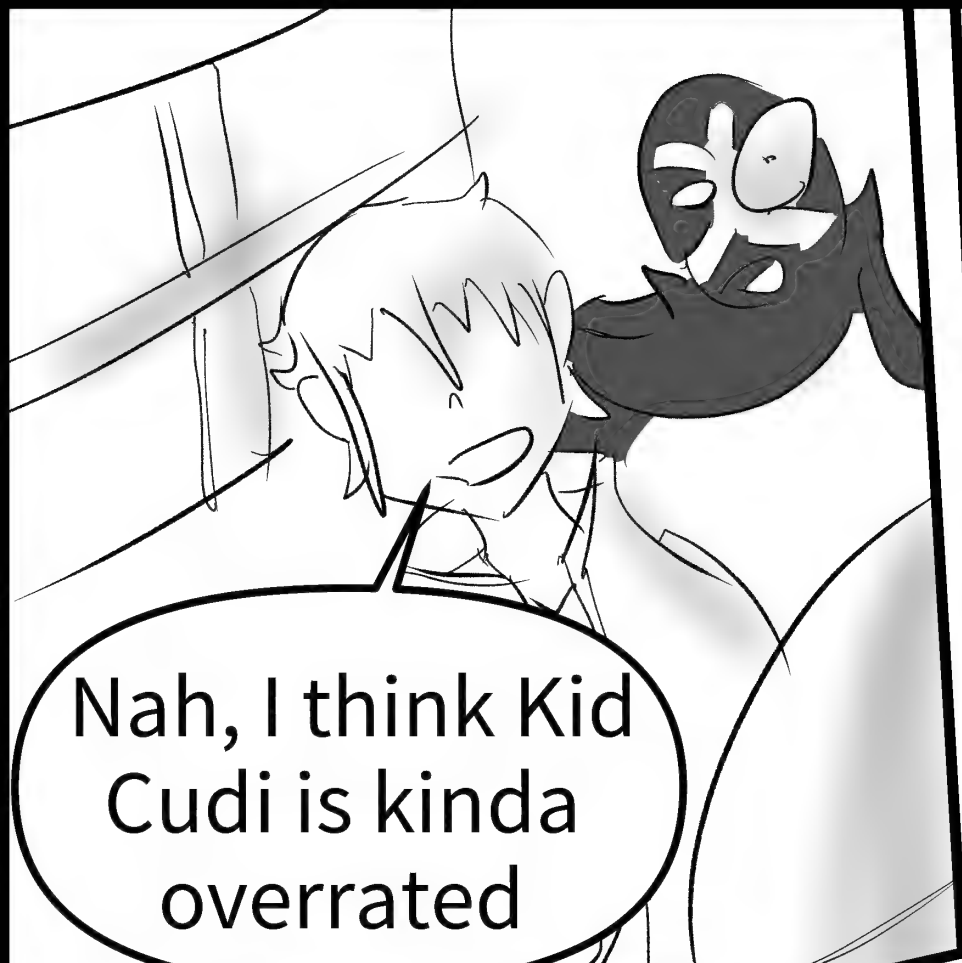

Driving home
alone with S

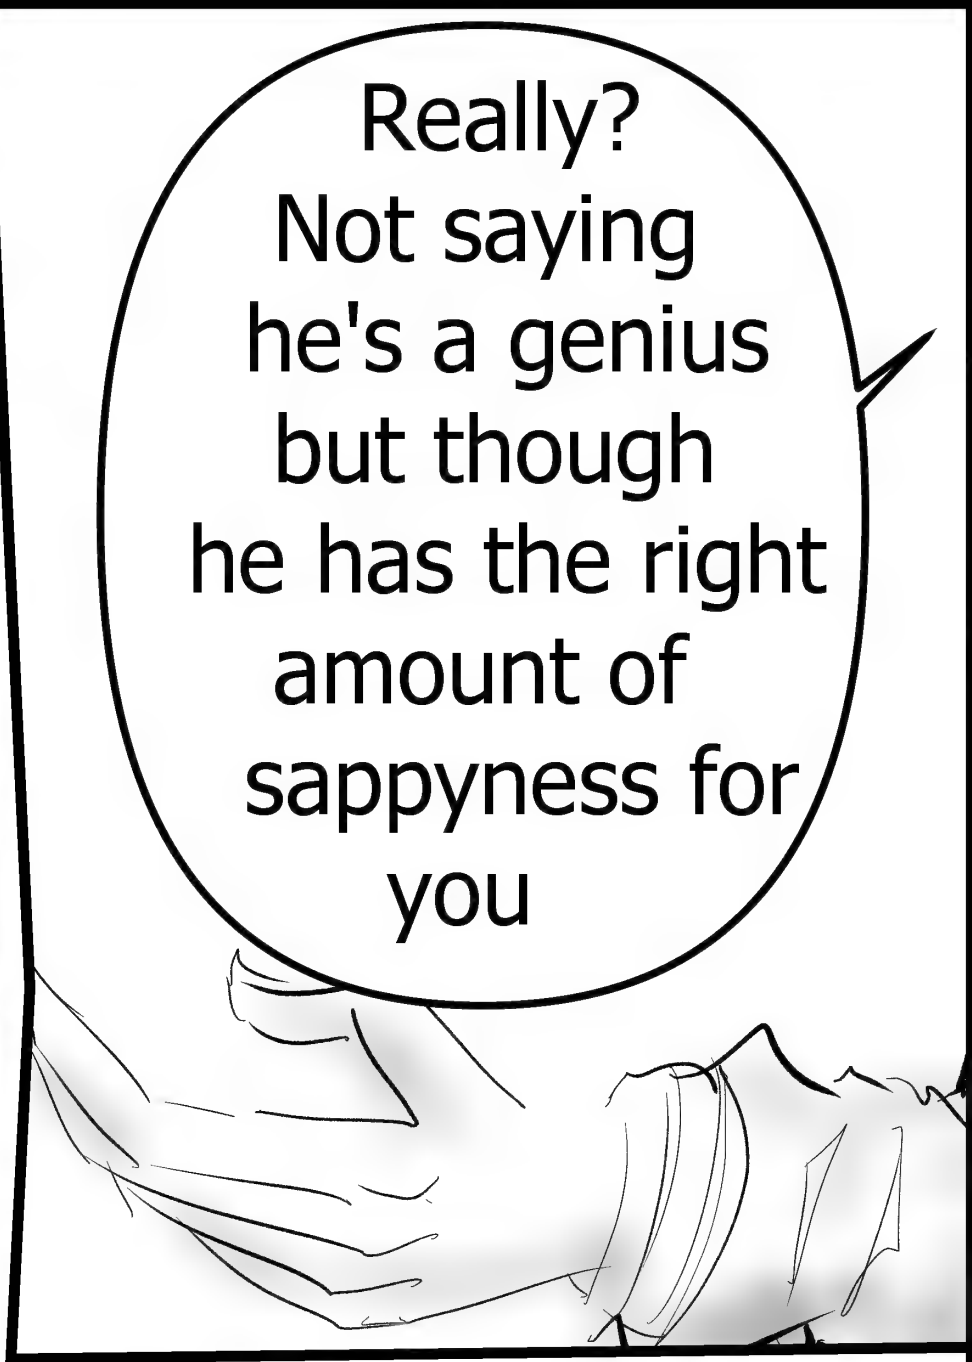

What am I
even doing?
just sitting
here

He must feel so awkward...

Nah, I think Kid Cudi is kinda overrated

Really?
Not saying
he's a genius
but though
he has the right
amount of
sappyness for
you

Being in a corner so
often, made it sound
inauthentic

An the dress
incident hit too
close to home
guipi!

hehe! Haha!

But yeah, who am I to criticize, when I could never make something like that myself...

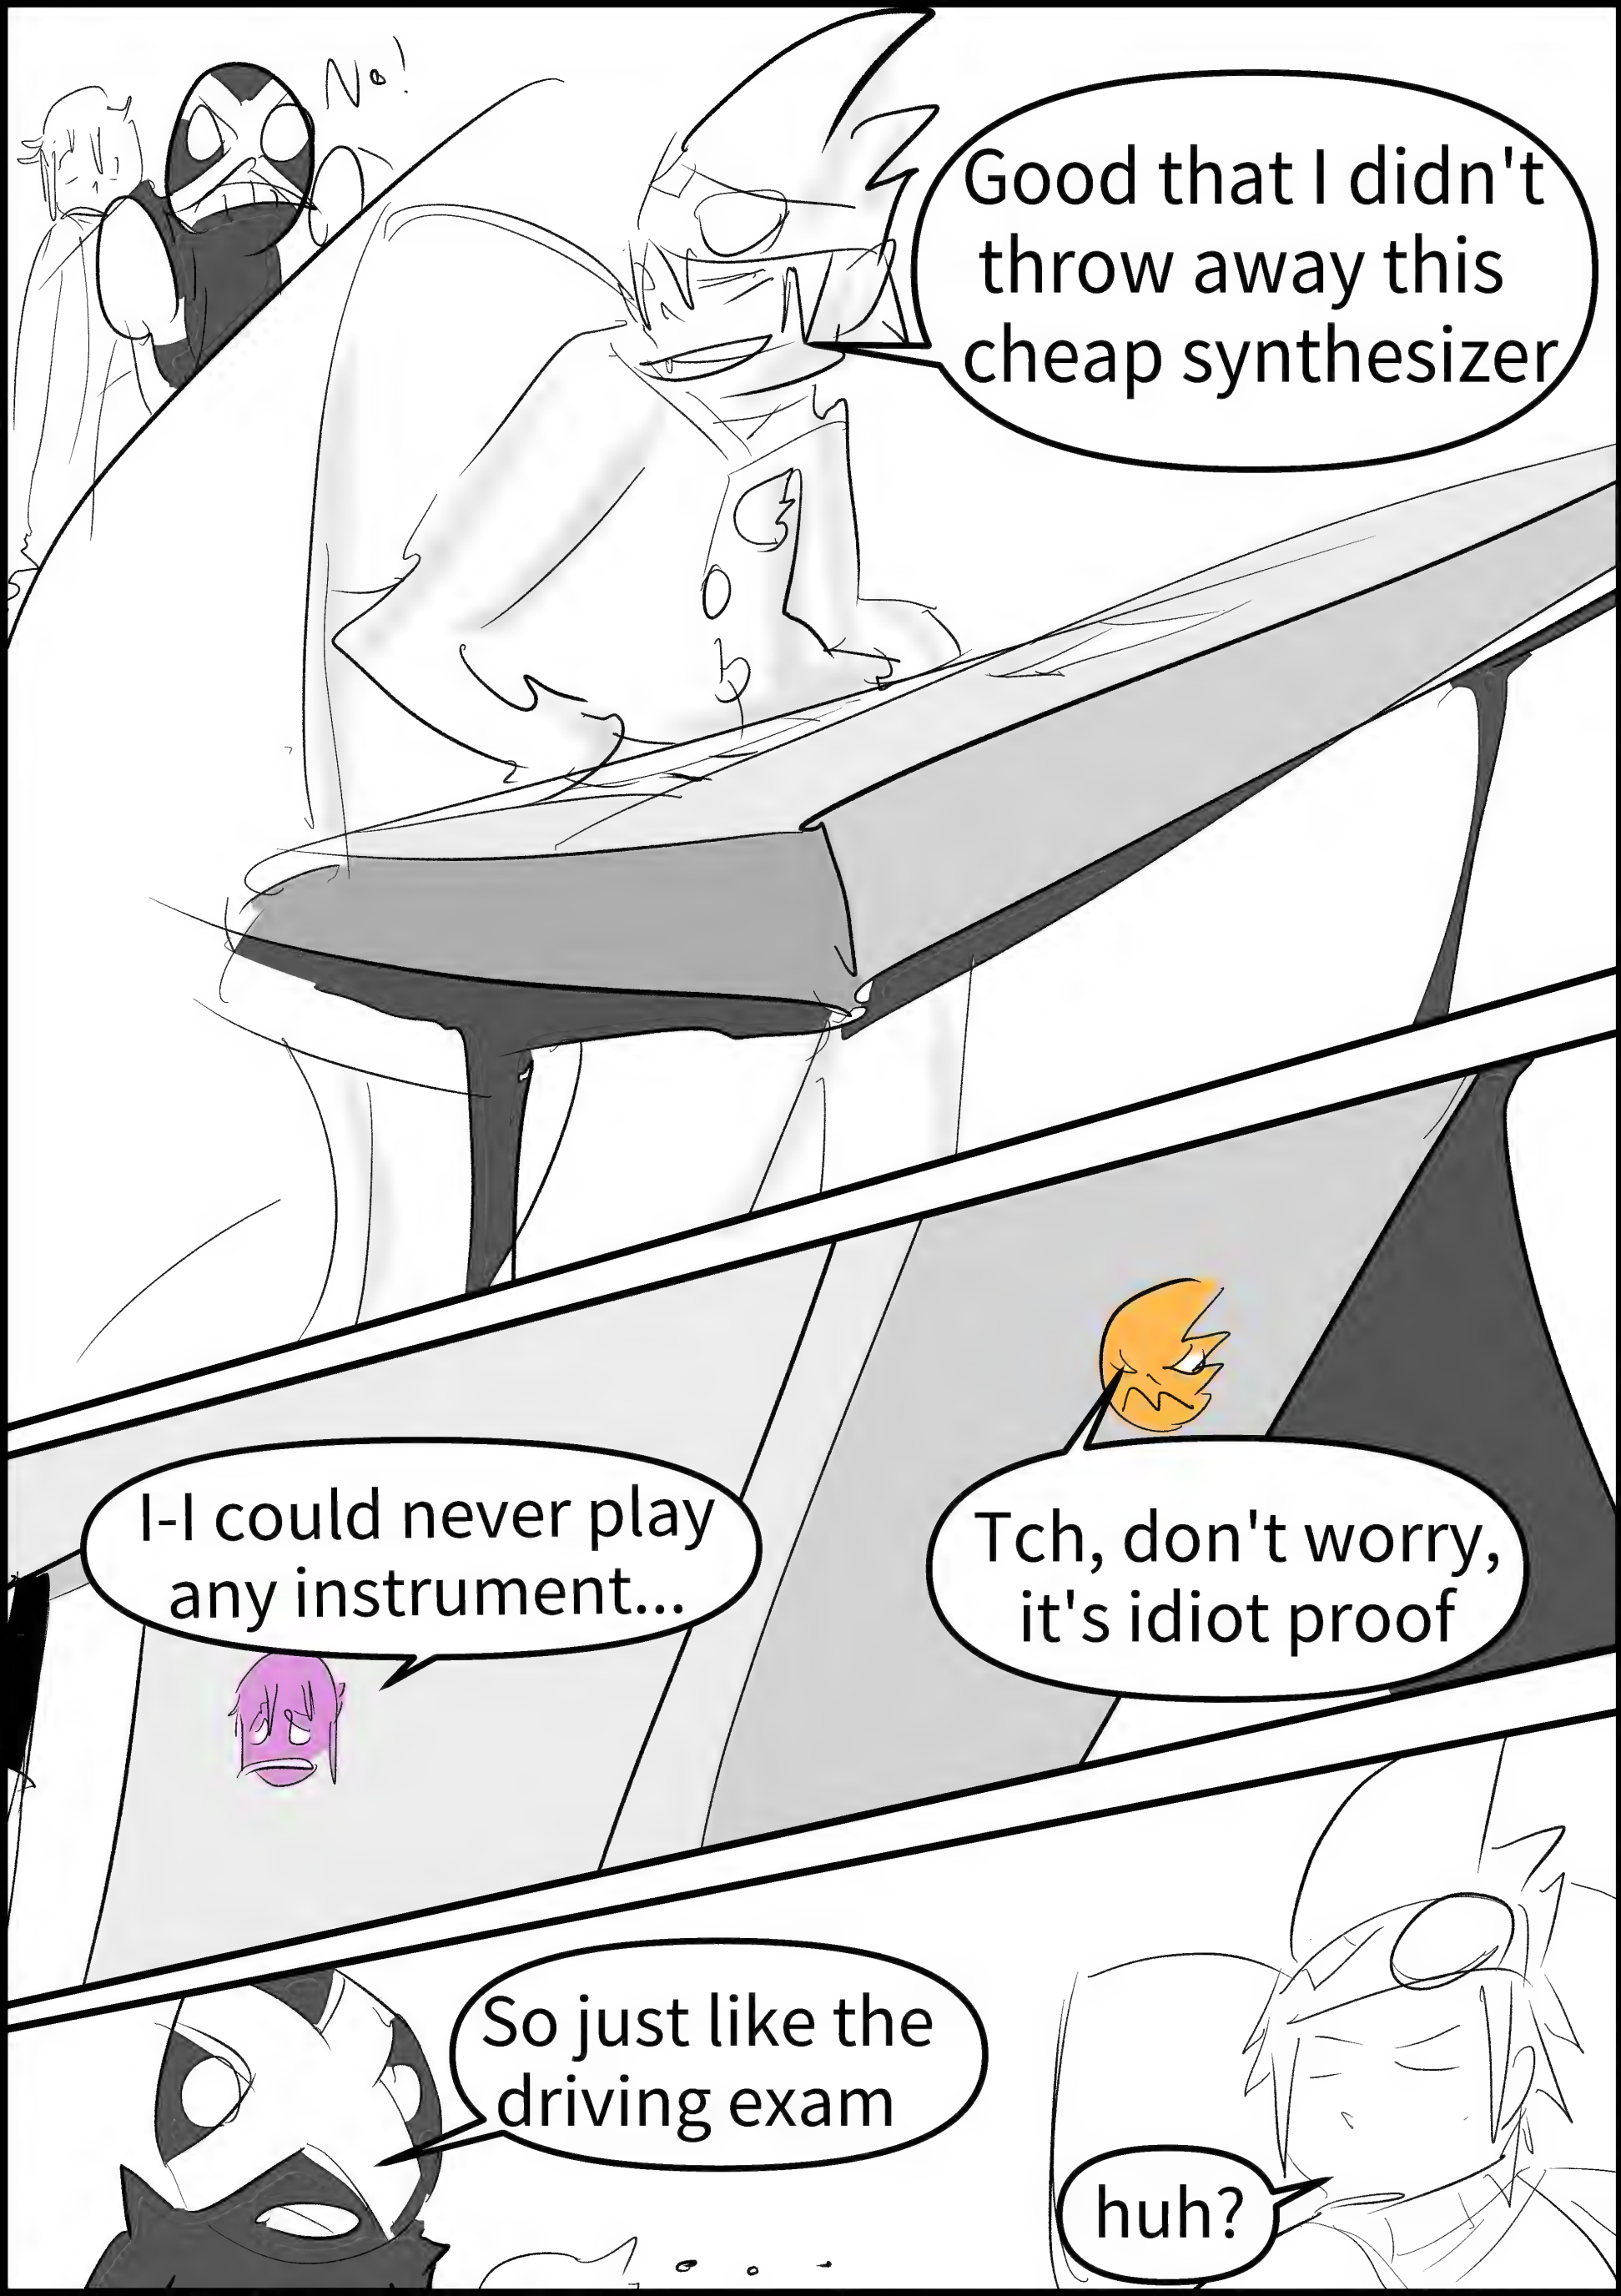

Tch, that shit is way easier than it looks

*That's right
supi*

Don't encourage him, do you want a repeat of the poetry thing??!

Relax if it's music, I can handle any level of depression

Luckily, I can't prove you wrong-

Good that I didn't throw away this cheap synthesizer

I-I could never play any instrument...

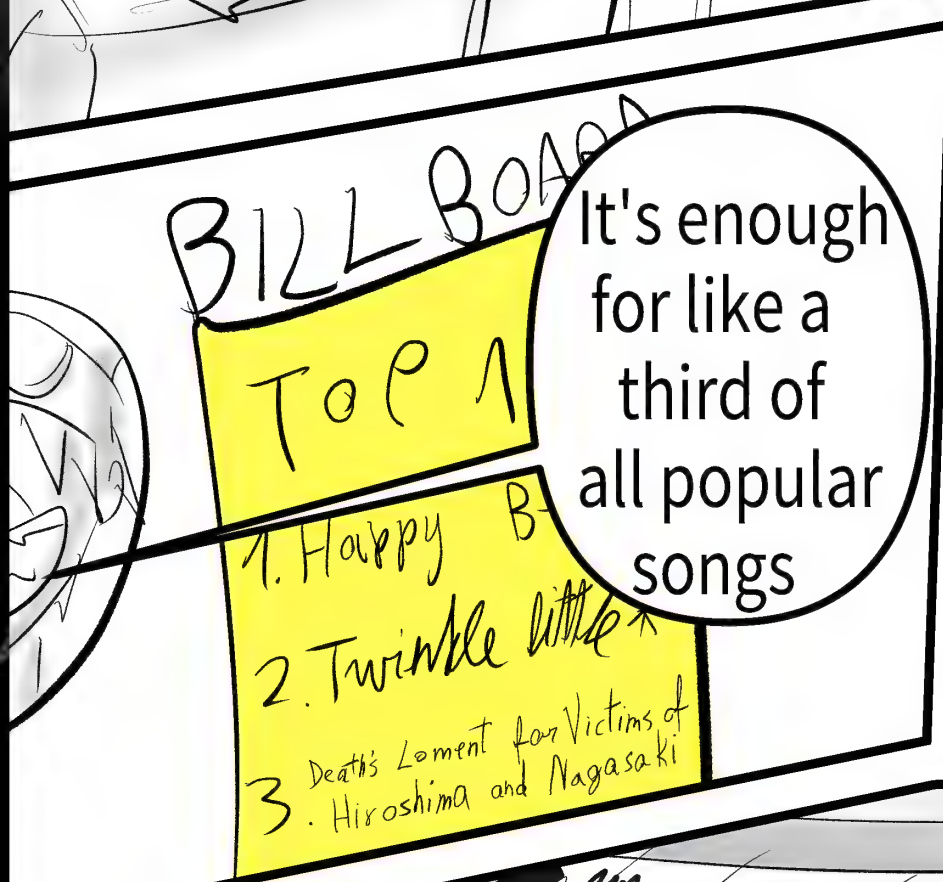

Tch, don't worry, it's idiot proof

So just like the driving exam

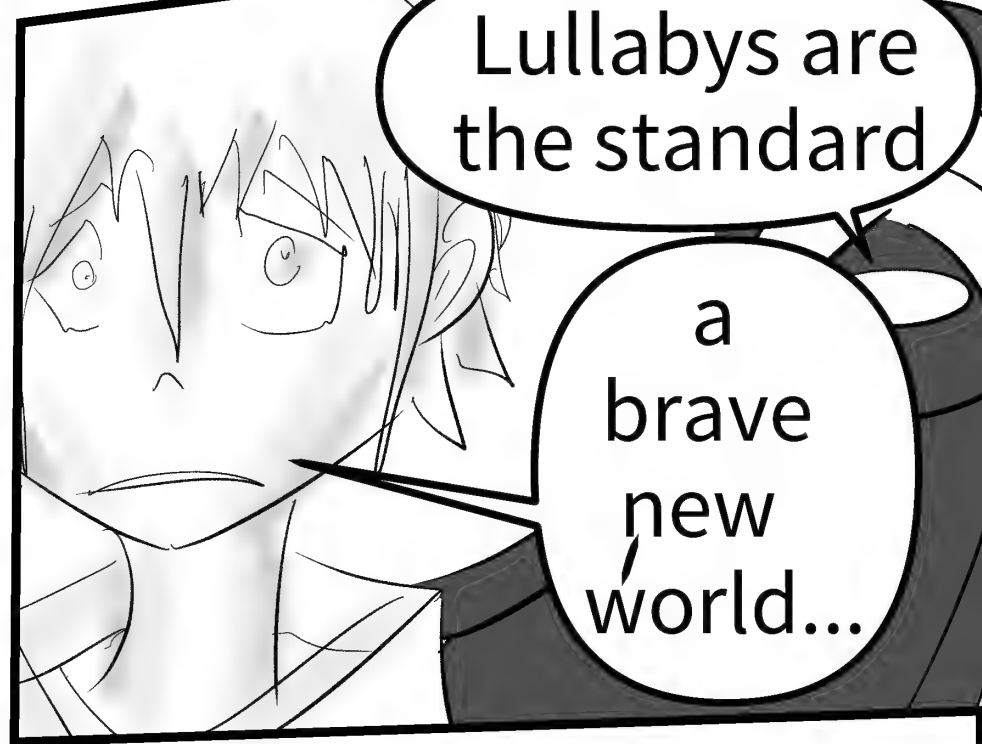

huh?

One can literally noodle around the white keys and it will sound ok, cause it's just the C-major scale

It's enough for like a third of all popular songs

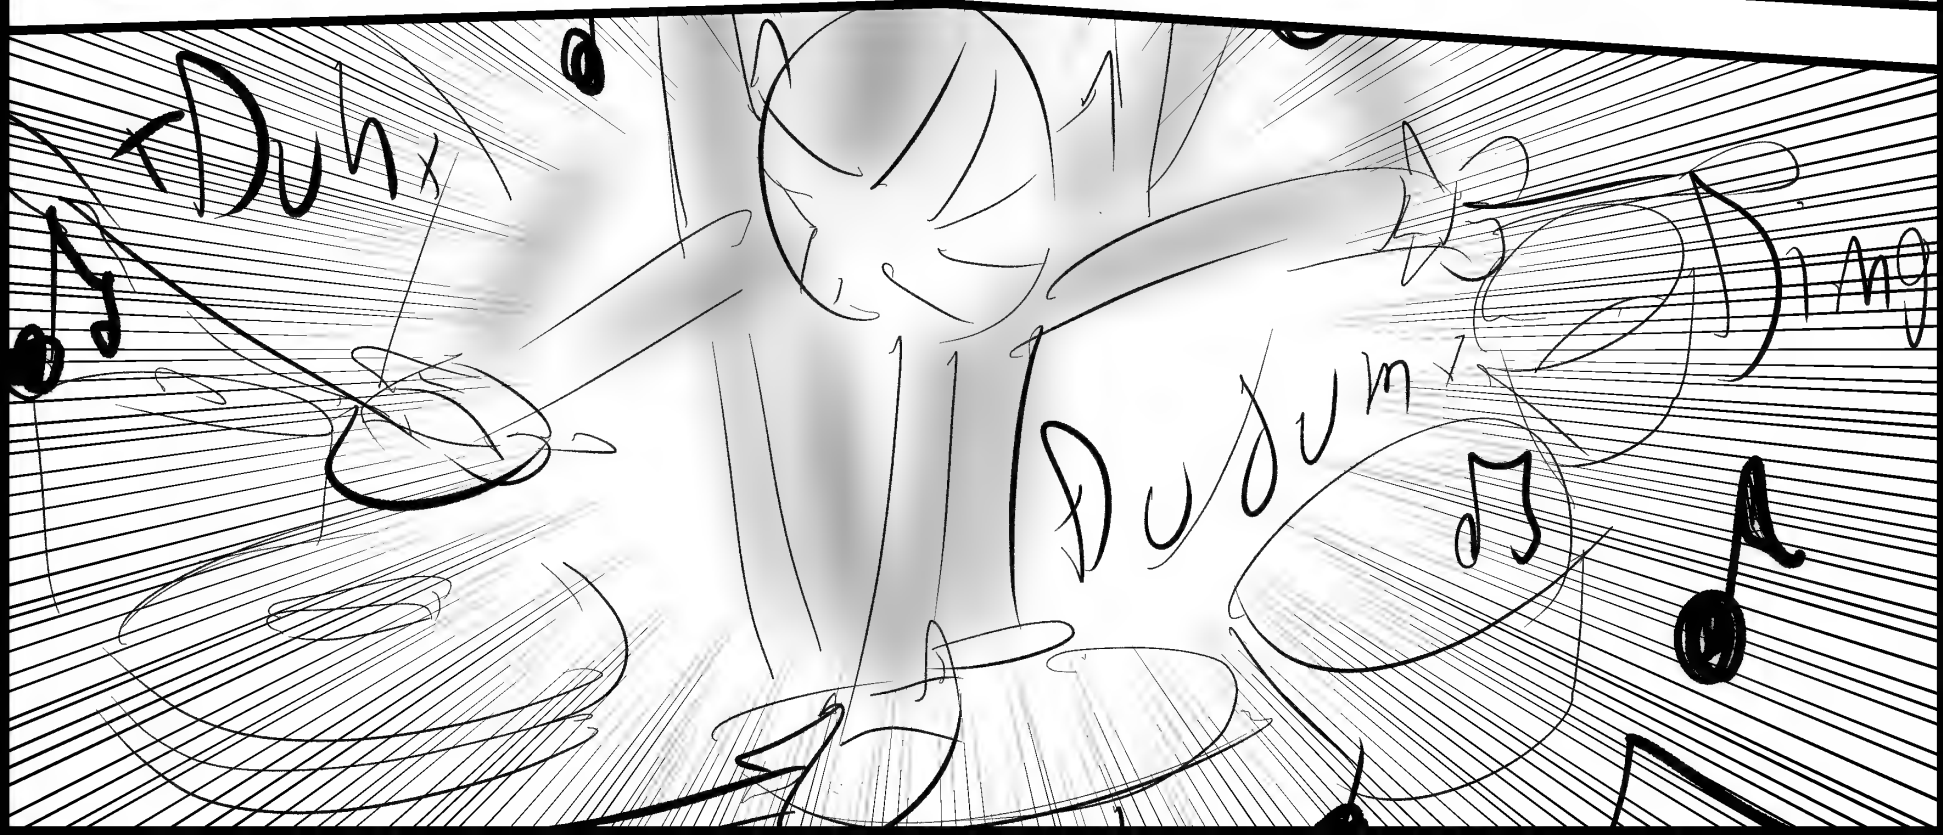

Lullabys are the standard

a brave new world...

No need for bravery when you can just memorize intervals and keep a rhythm

Wow this is
much more fun
than smashing
in the skulls of
the innocent!

Well, hopefully

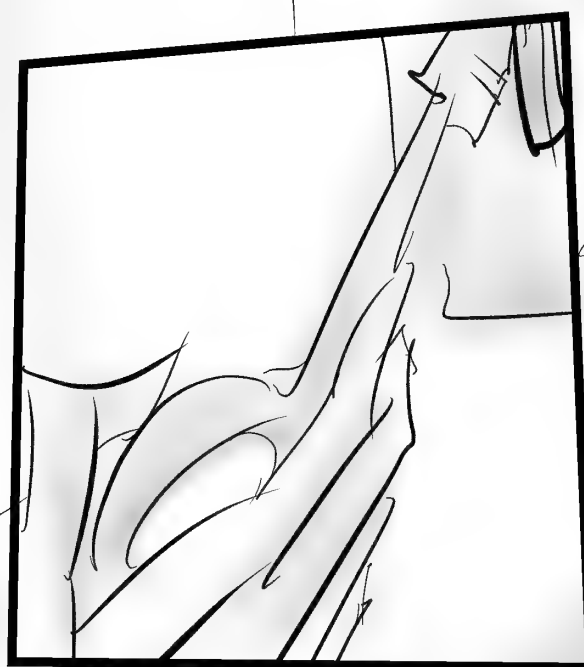

Ha ha ha ha!

Well, at least the
library got it

Well, let's see if Crona
survived all the blabber
about post-pre-anti-punk
or whatever

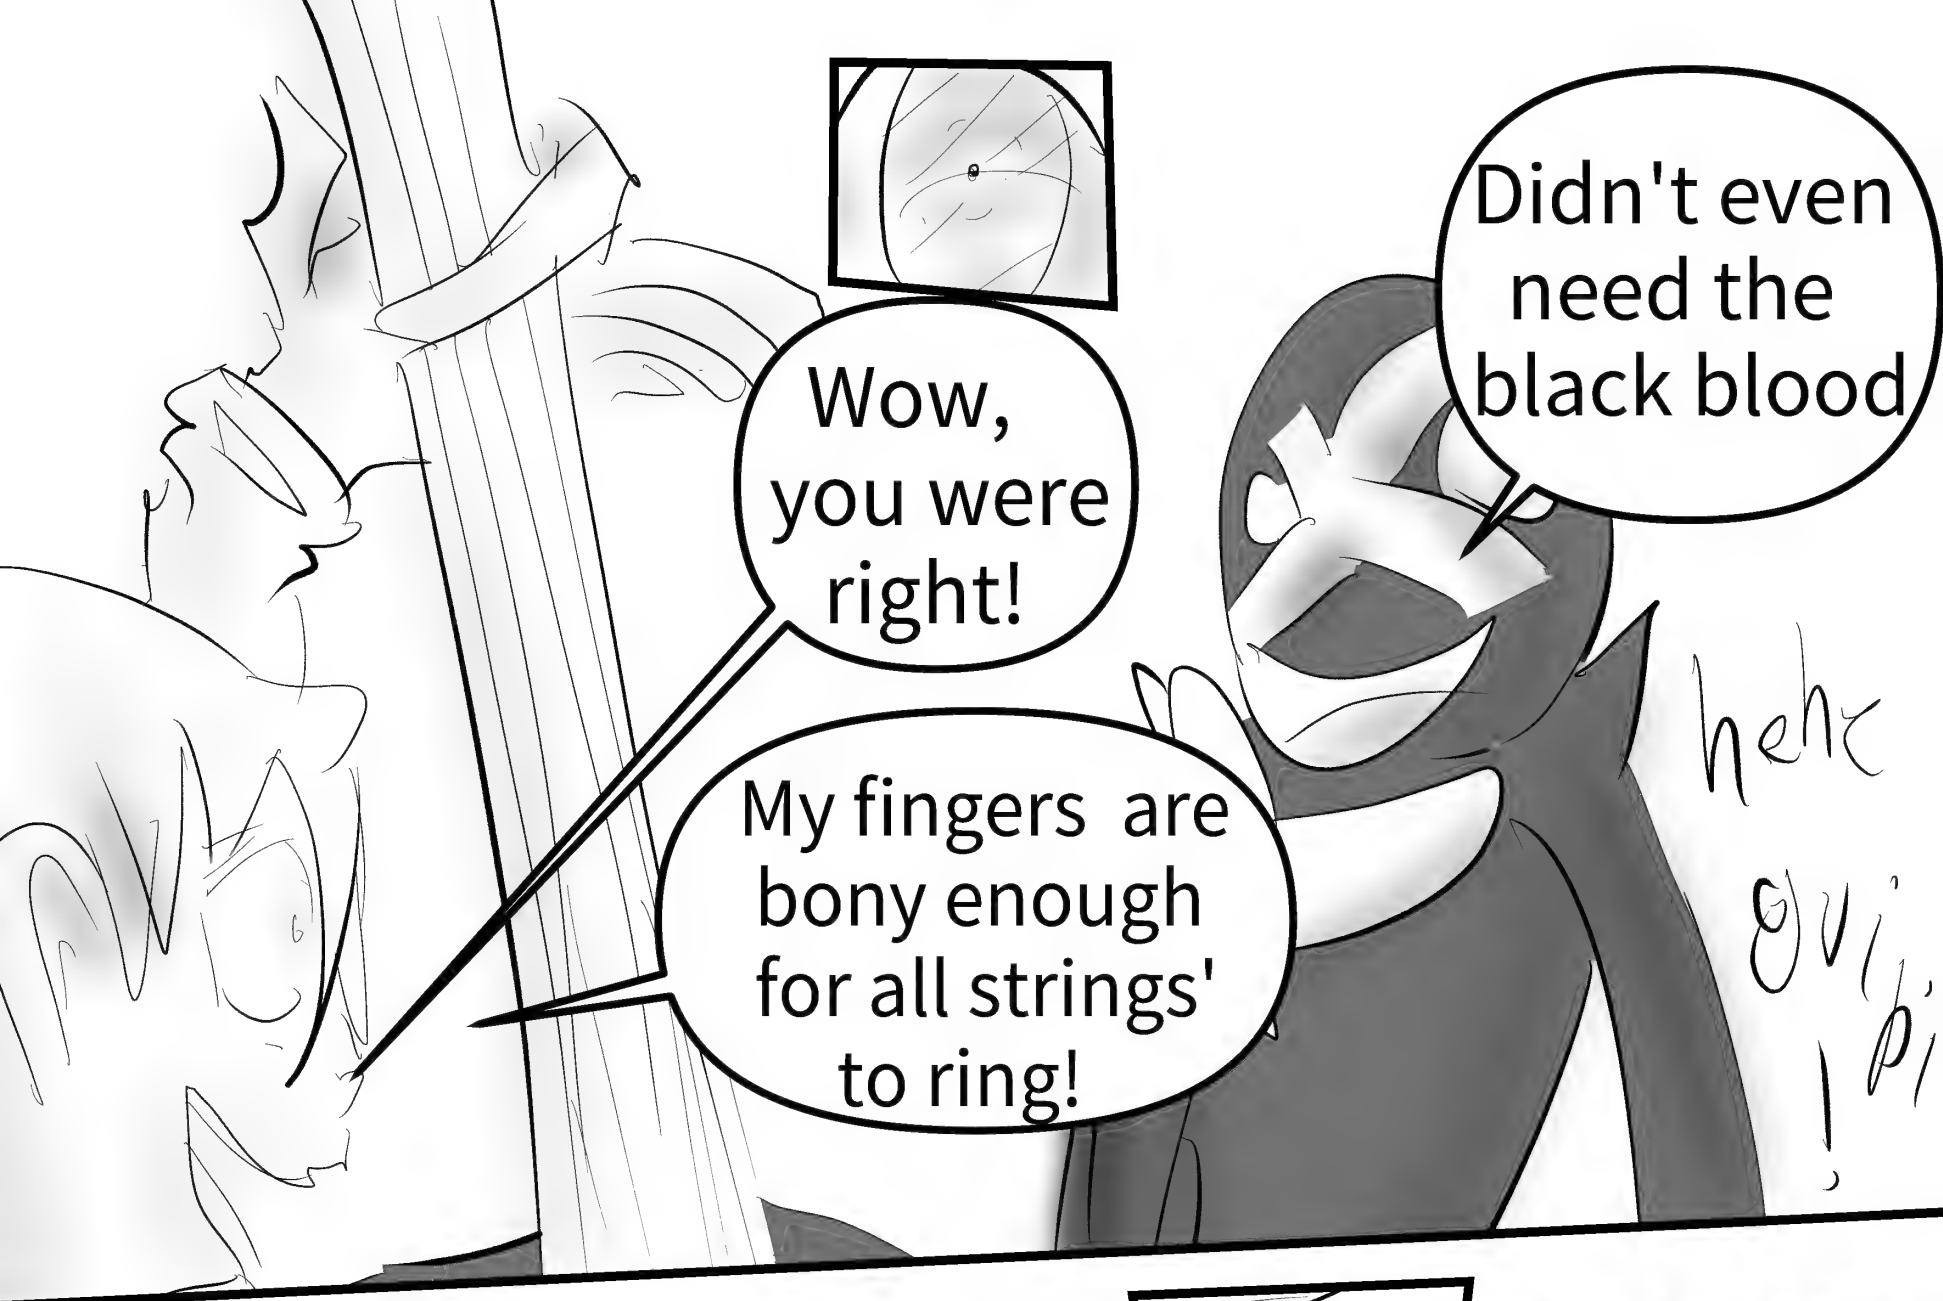

I just hope Soul wasn't
acting anti-social again

They are just too different

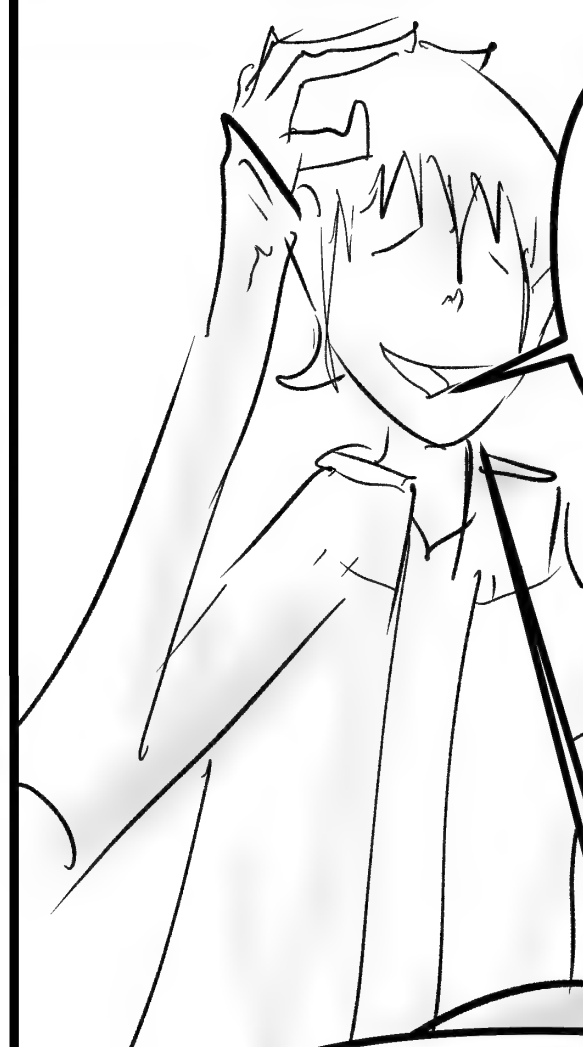

So luckily
I'm here to
save the
day-

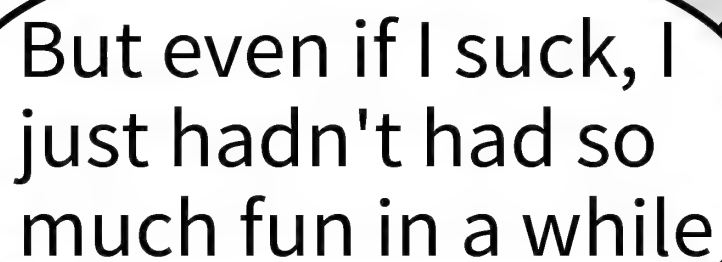

Must have already
read all the others
haha, guip!

Oh sorry
Maka for
all the
noise

But even if I suck, I
just hadn't had so
much fun in a while

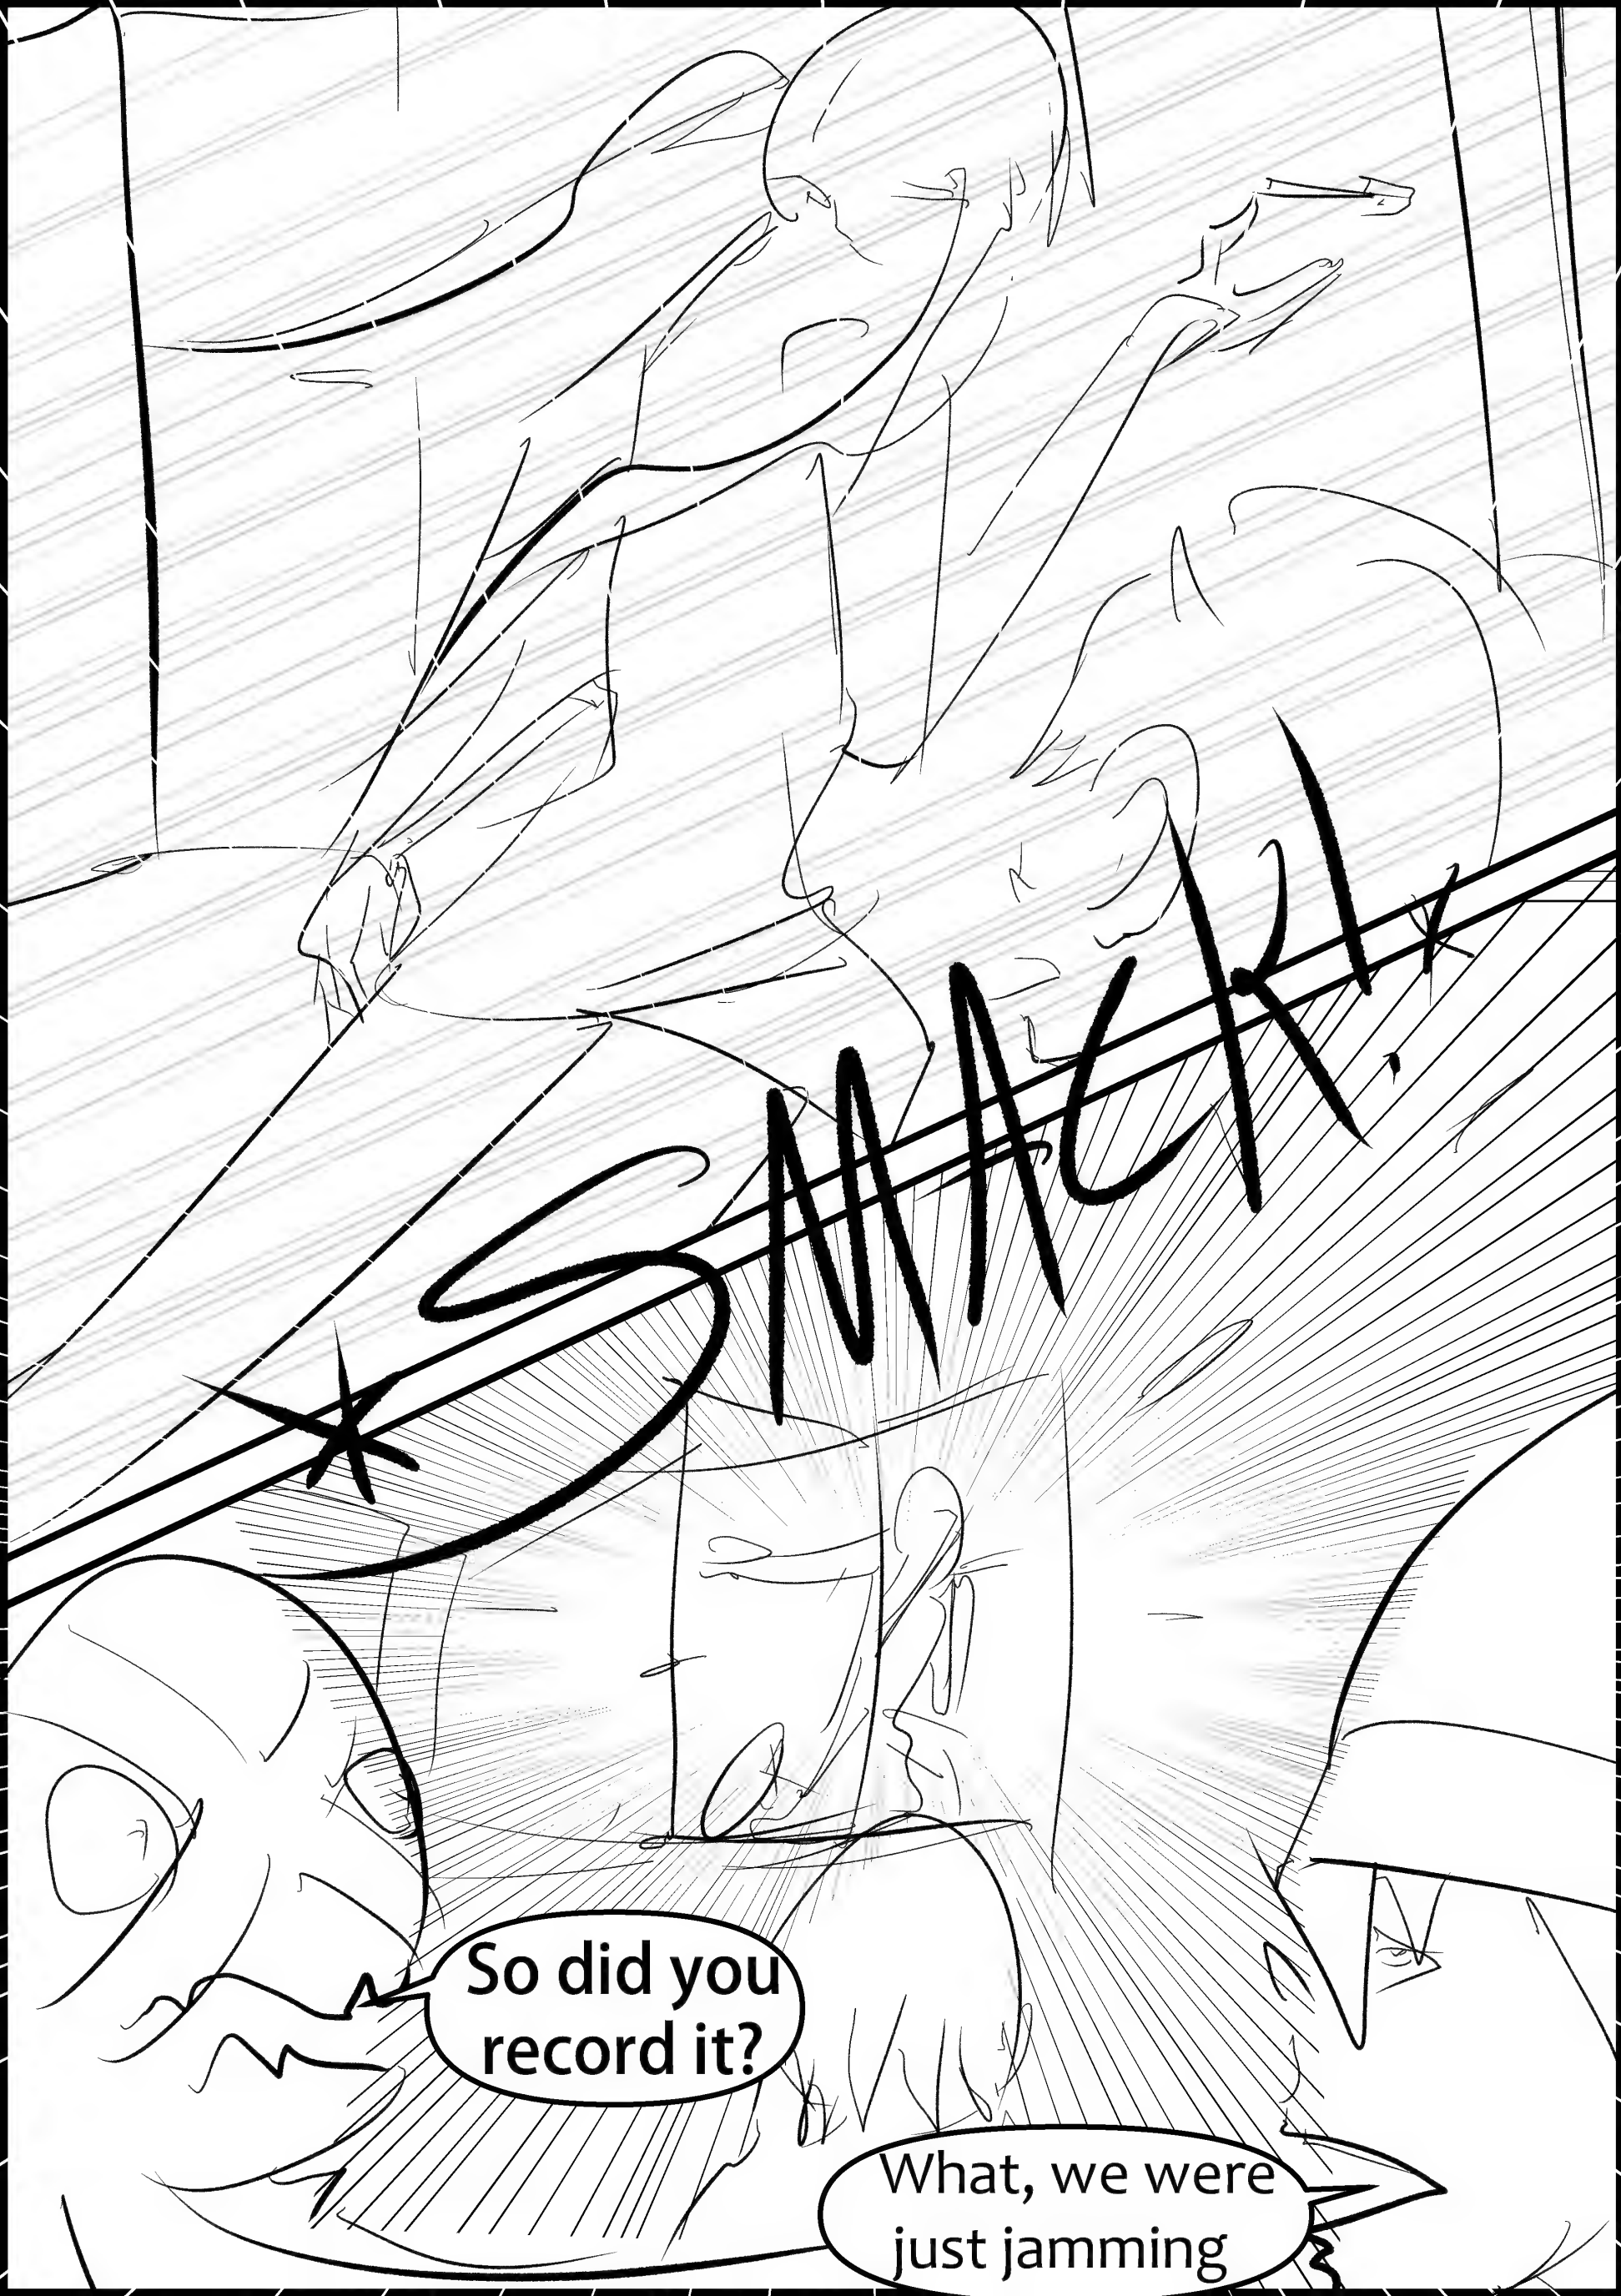

heh ha ha
Guip
Hey,
it it sucks
That should
be just right
for her taste.

Come on guys

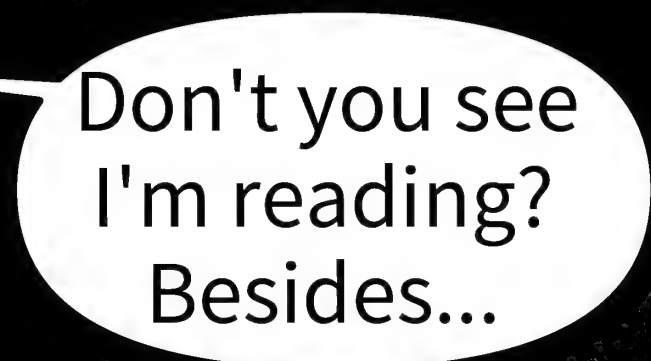

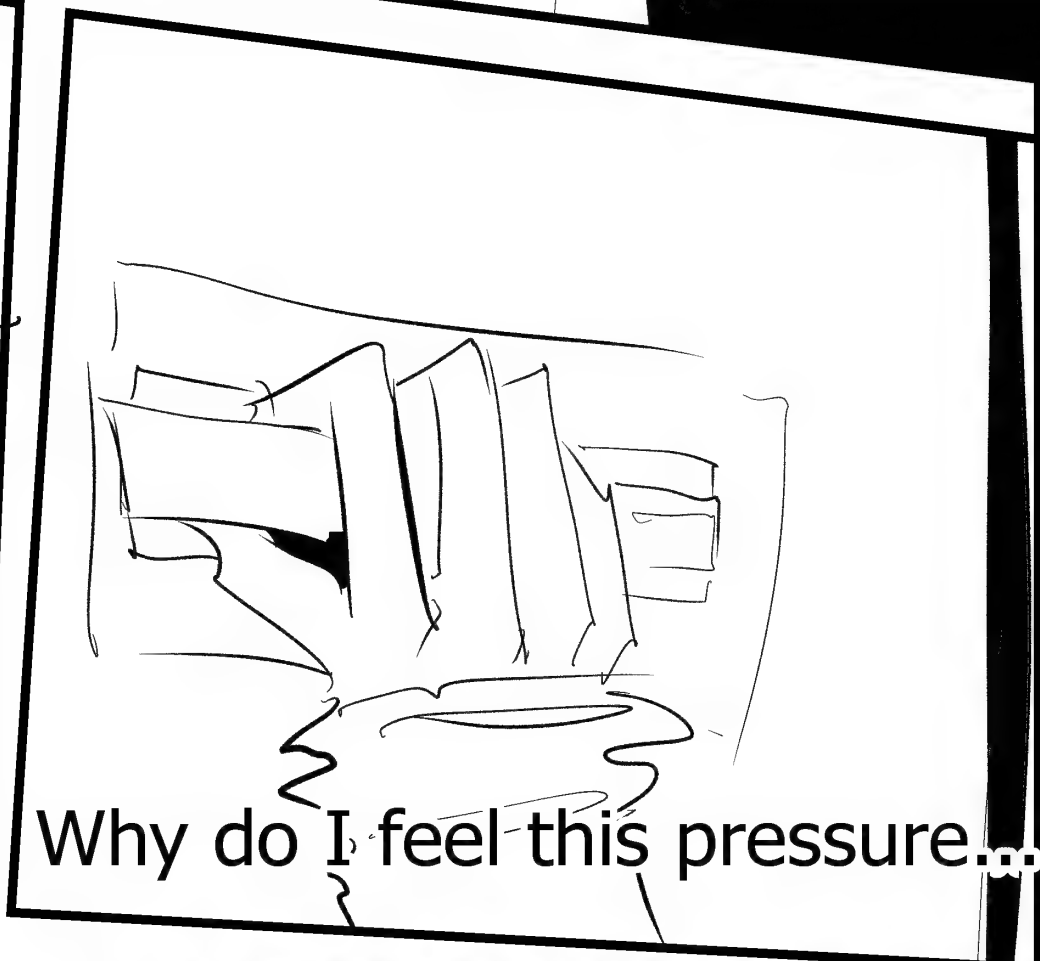

Oh don't worry, I wouldn't
want to ruin your FUN,
what do I know, right?
I'm just a square

So did you
record it?

What, we were
just jamming

You have more
exciting stuff to
do than to pity
me

Maka, isn't it
the other way-

Enough of your
jokes, I get it

G-get what?

I don't understand what-

Ofcourse
you don't

How COULD somebody,
who is into something
SO primitive?

As Kant said in
"Critique of judgment"

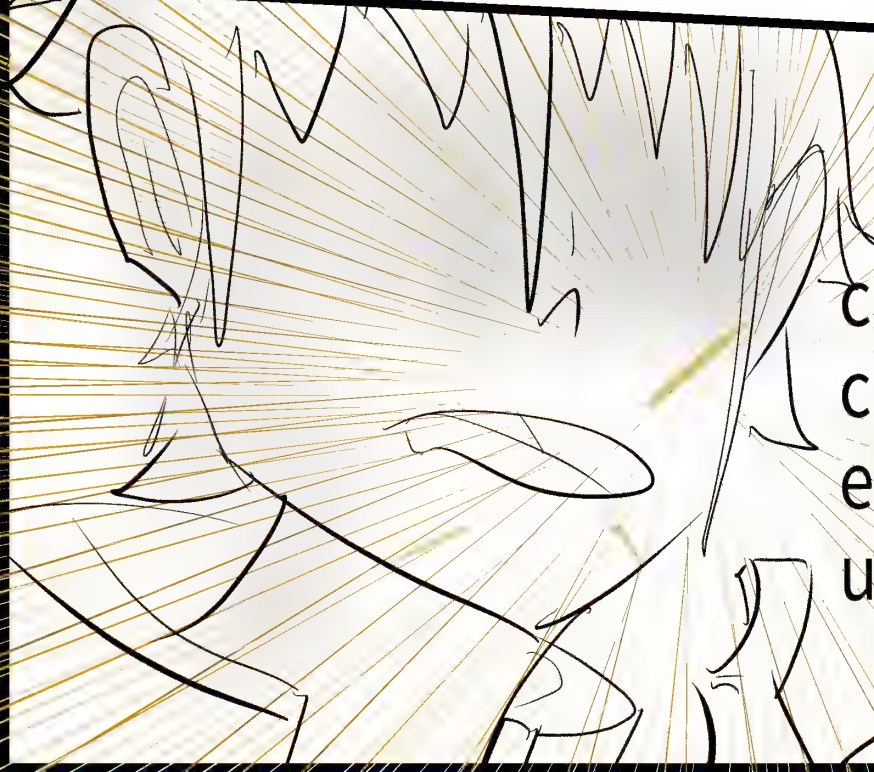

"So, music is among
the fine arts the lowest,
because it only concerns
itself with sentimentality"

Oh, I didn't know
you read philosophy

Tch, sometimes
I need some
light reading as a
pallet cleanser

But I personally think Hegel
is onto something when he
categorised music as the subjective
coming into itself, outwardly
expressing the interiority,
unbound by the schema of
time and space

Well being grounded, I just found a random tome and-

Where the hell did you

Haha, don't waste your time, it totally wasn't too complicated for me... Just gooble-dey-gock, haha

Music is good or something

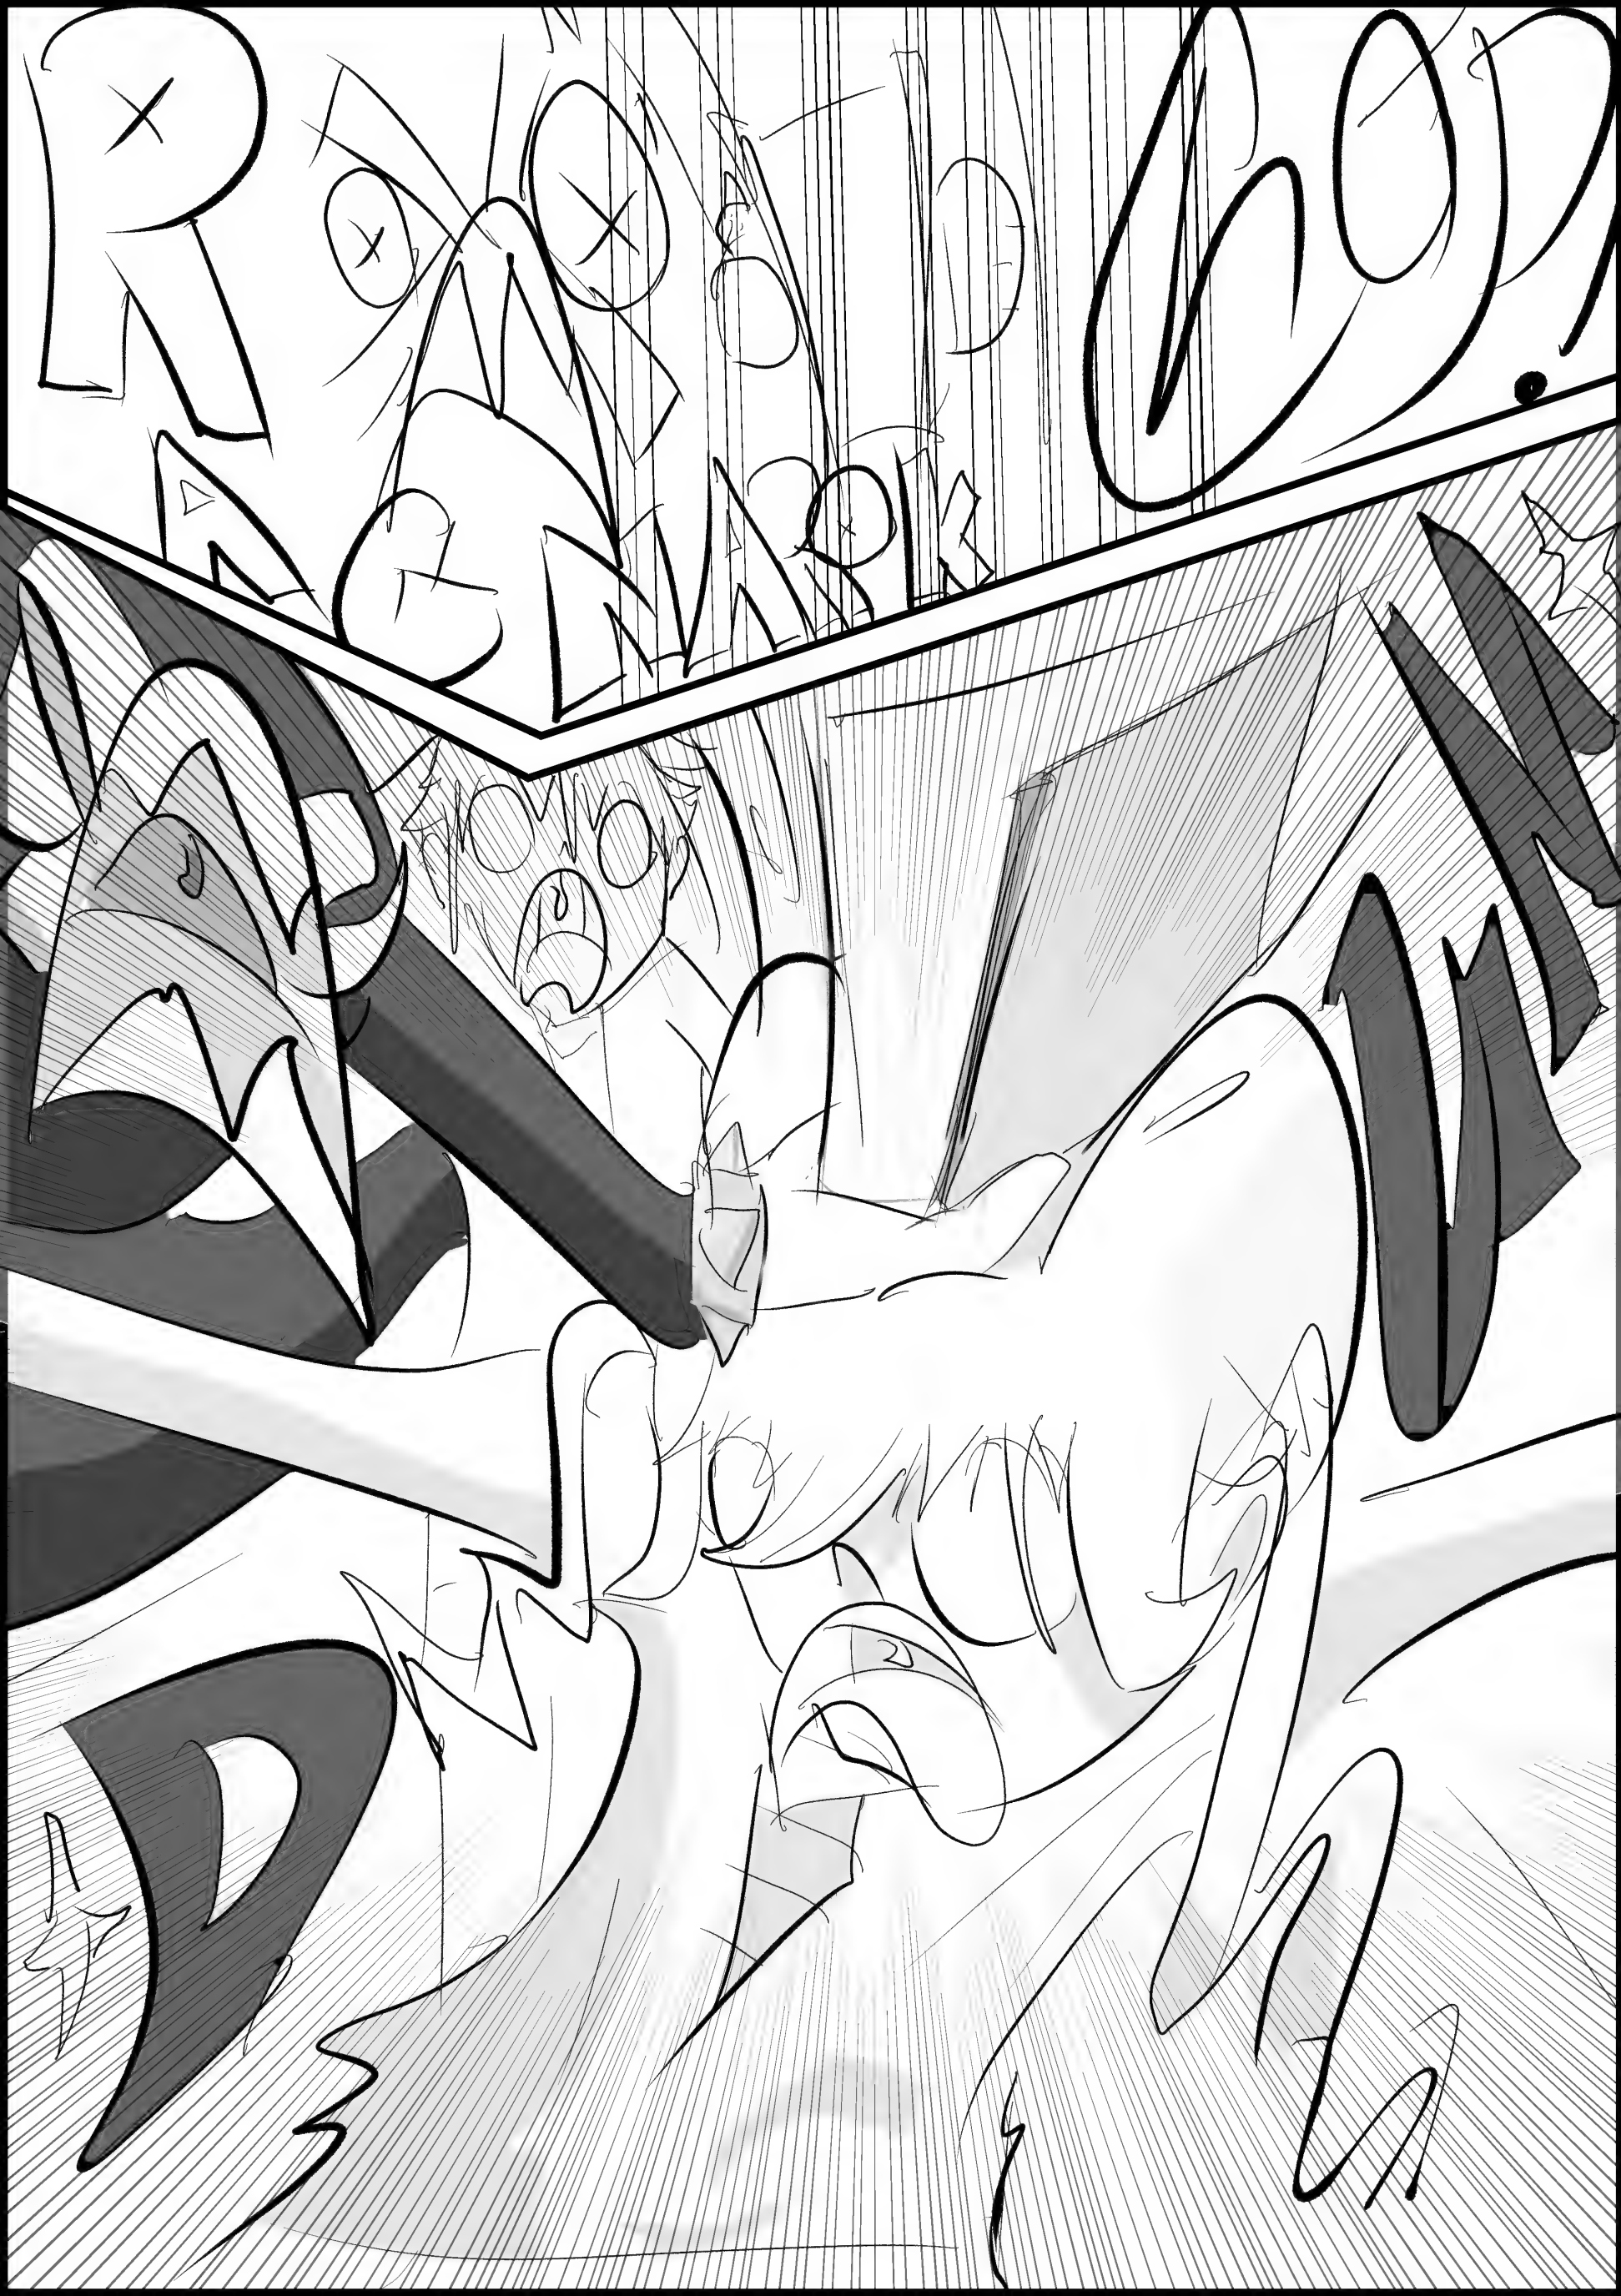

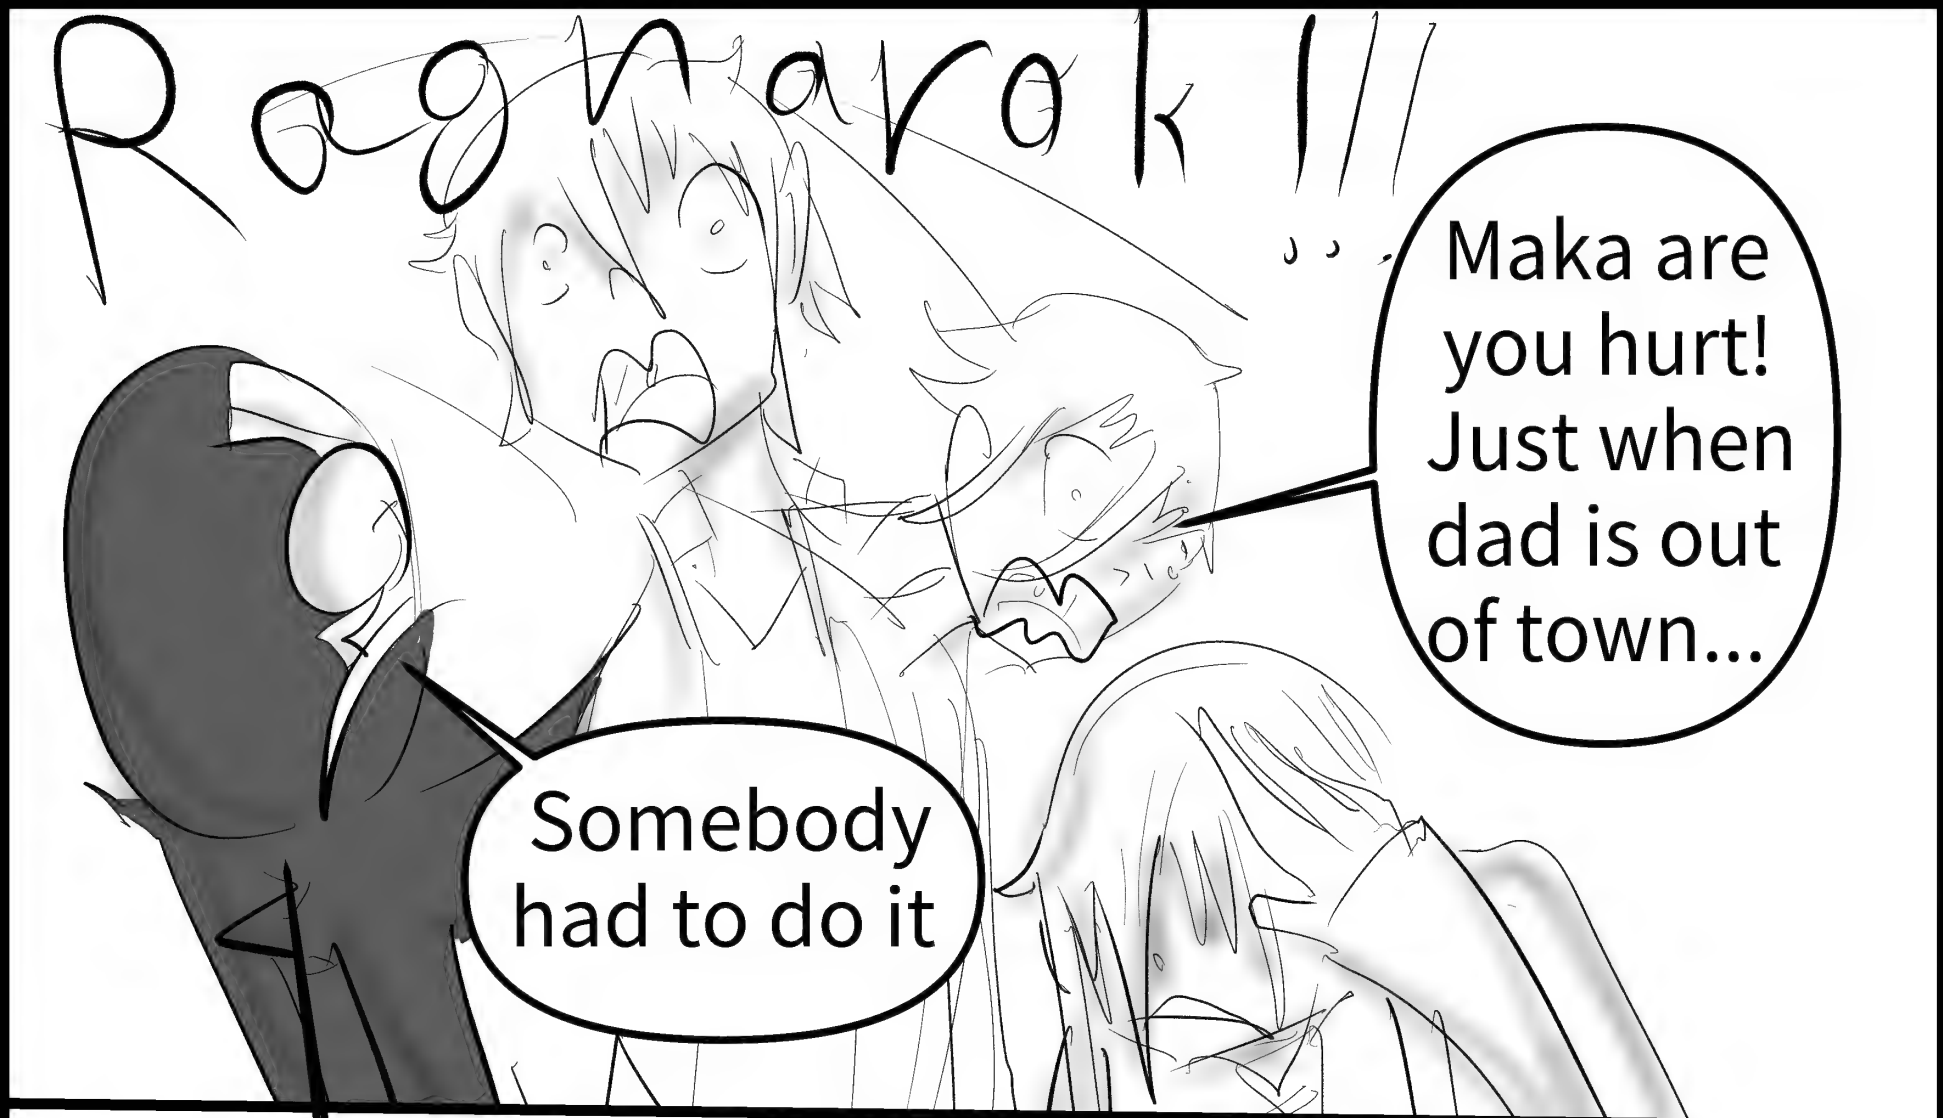

Then might as well
regurgitate
Schopenhauer
He is so much like you

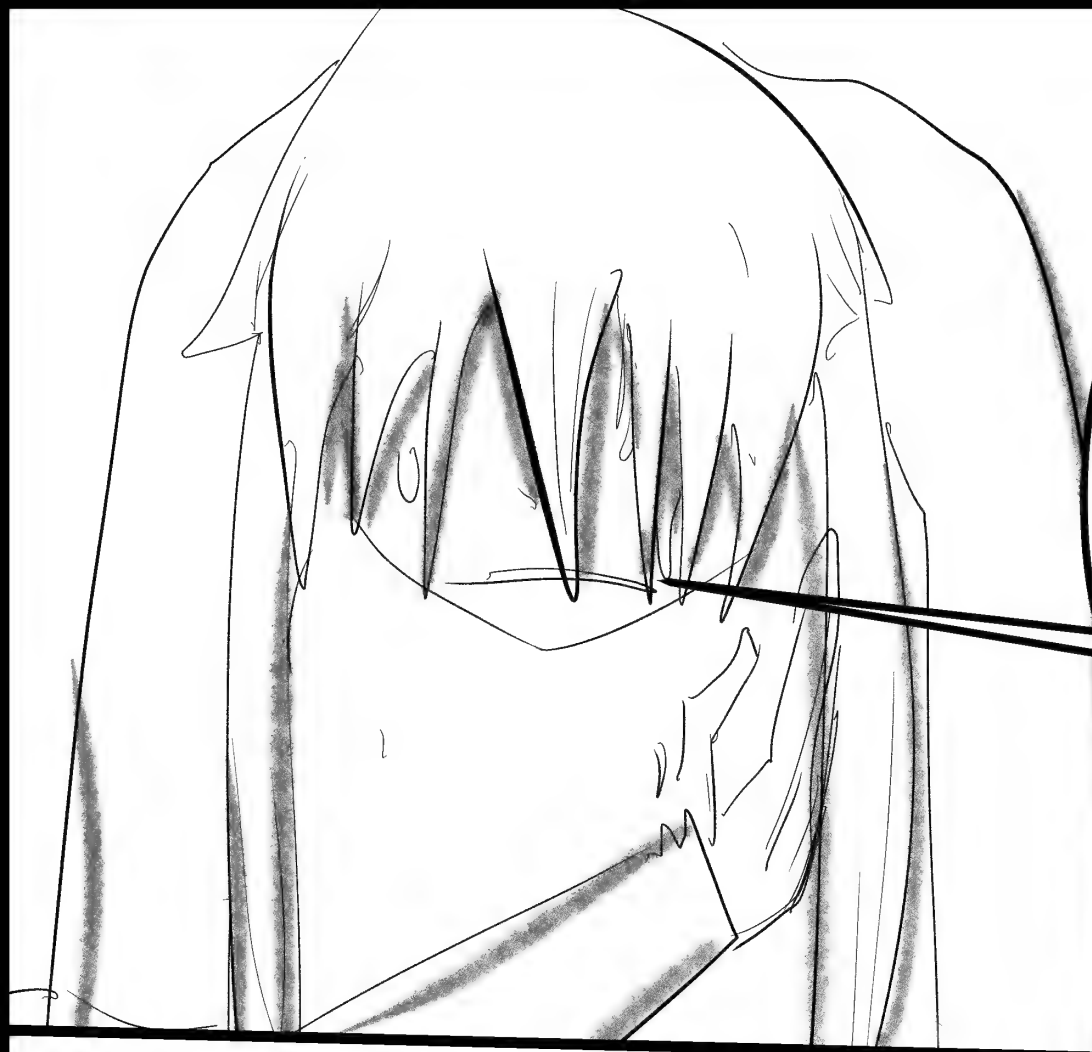

An anti social
little creep

who no women
not even mom, guys stand

Why am I allways just whining, why do I make things harder for everyone, why can't I do anything right?!

I'm so sorry Crona for being such a terrible friend

Why did I say these horrible things?

Yeez louis, is she mixing up your quirks-

Not now Ragnarok, besides I already made that observation-

+ So +

Hm, I guess I
could listen to
it ironically

sob

That
sounded
like Maka

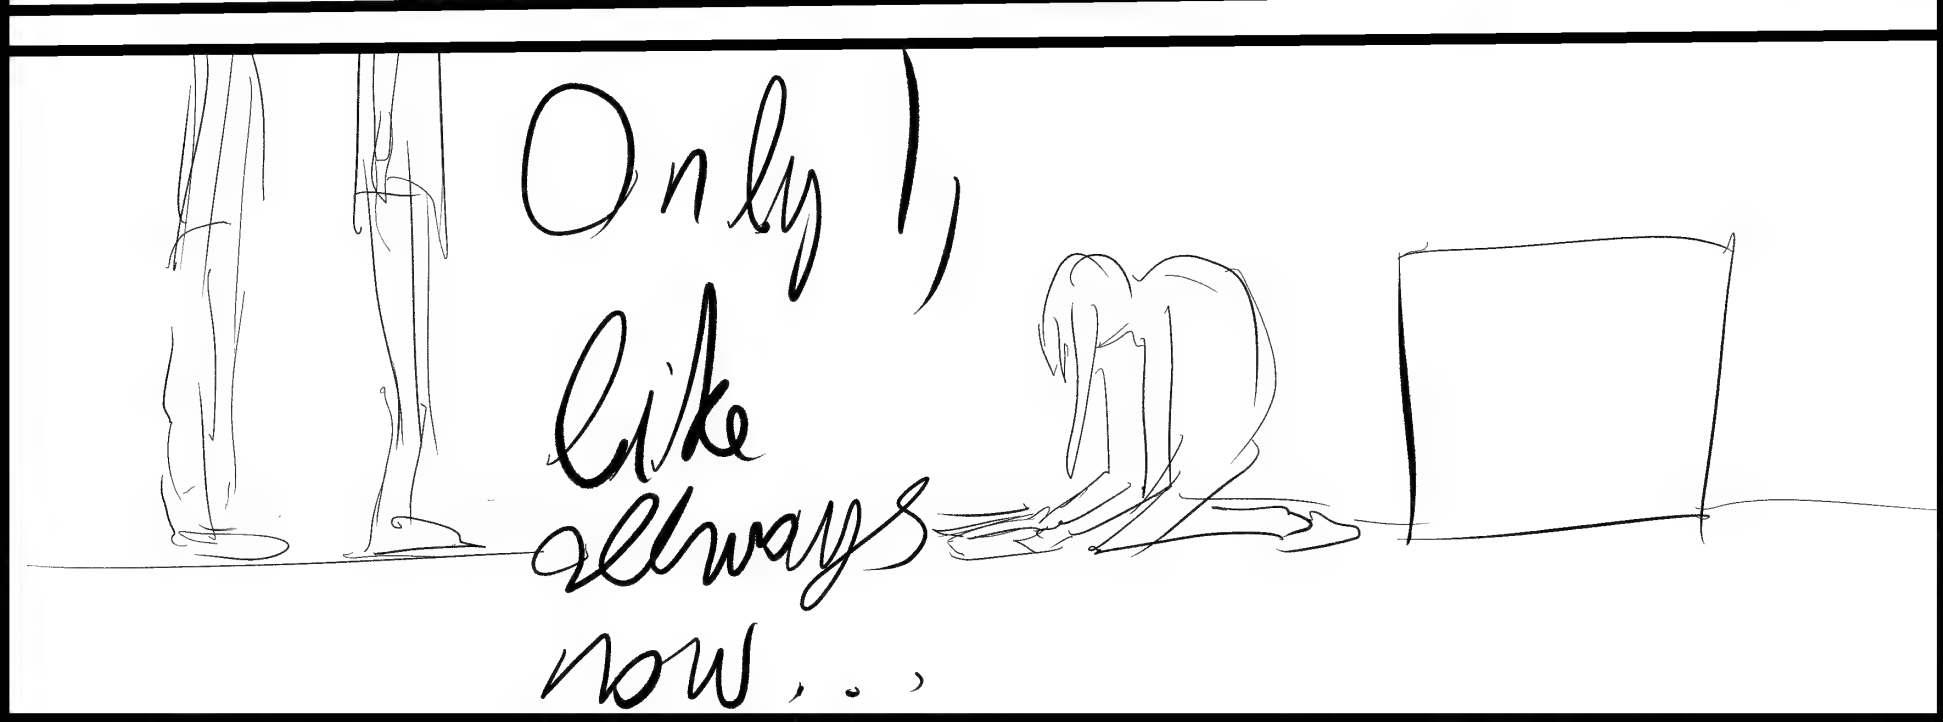

What
the
hell?!

sob

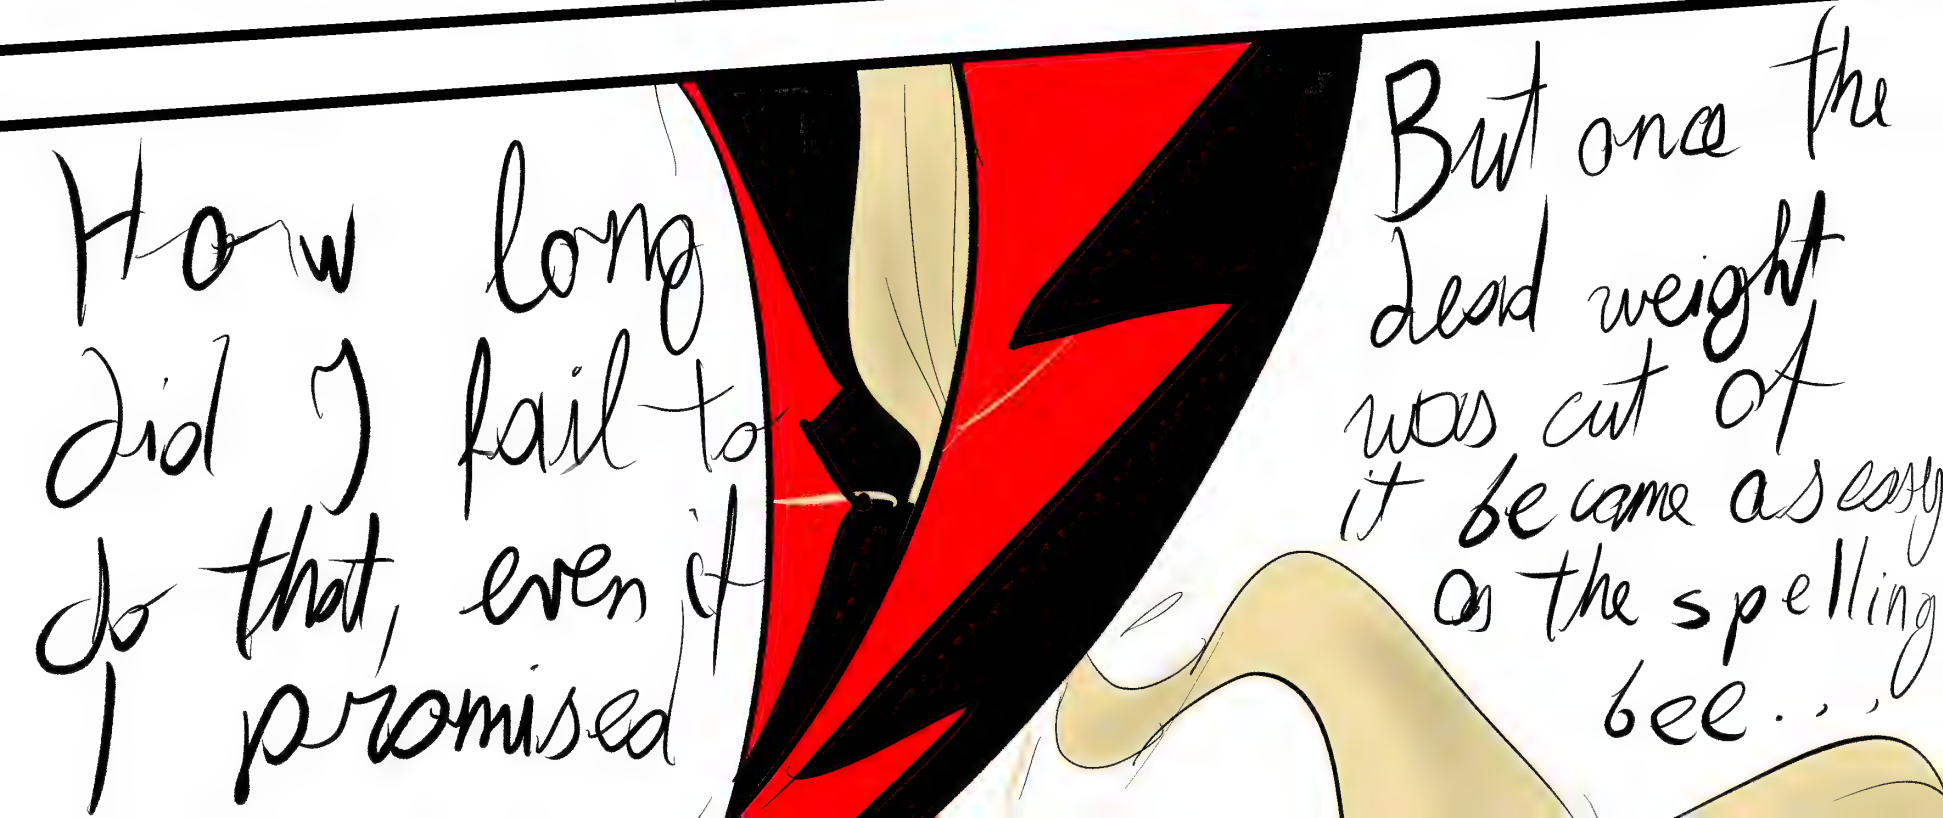

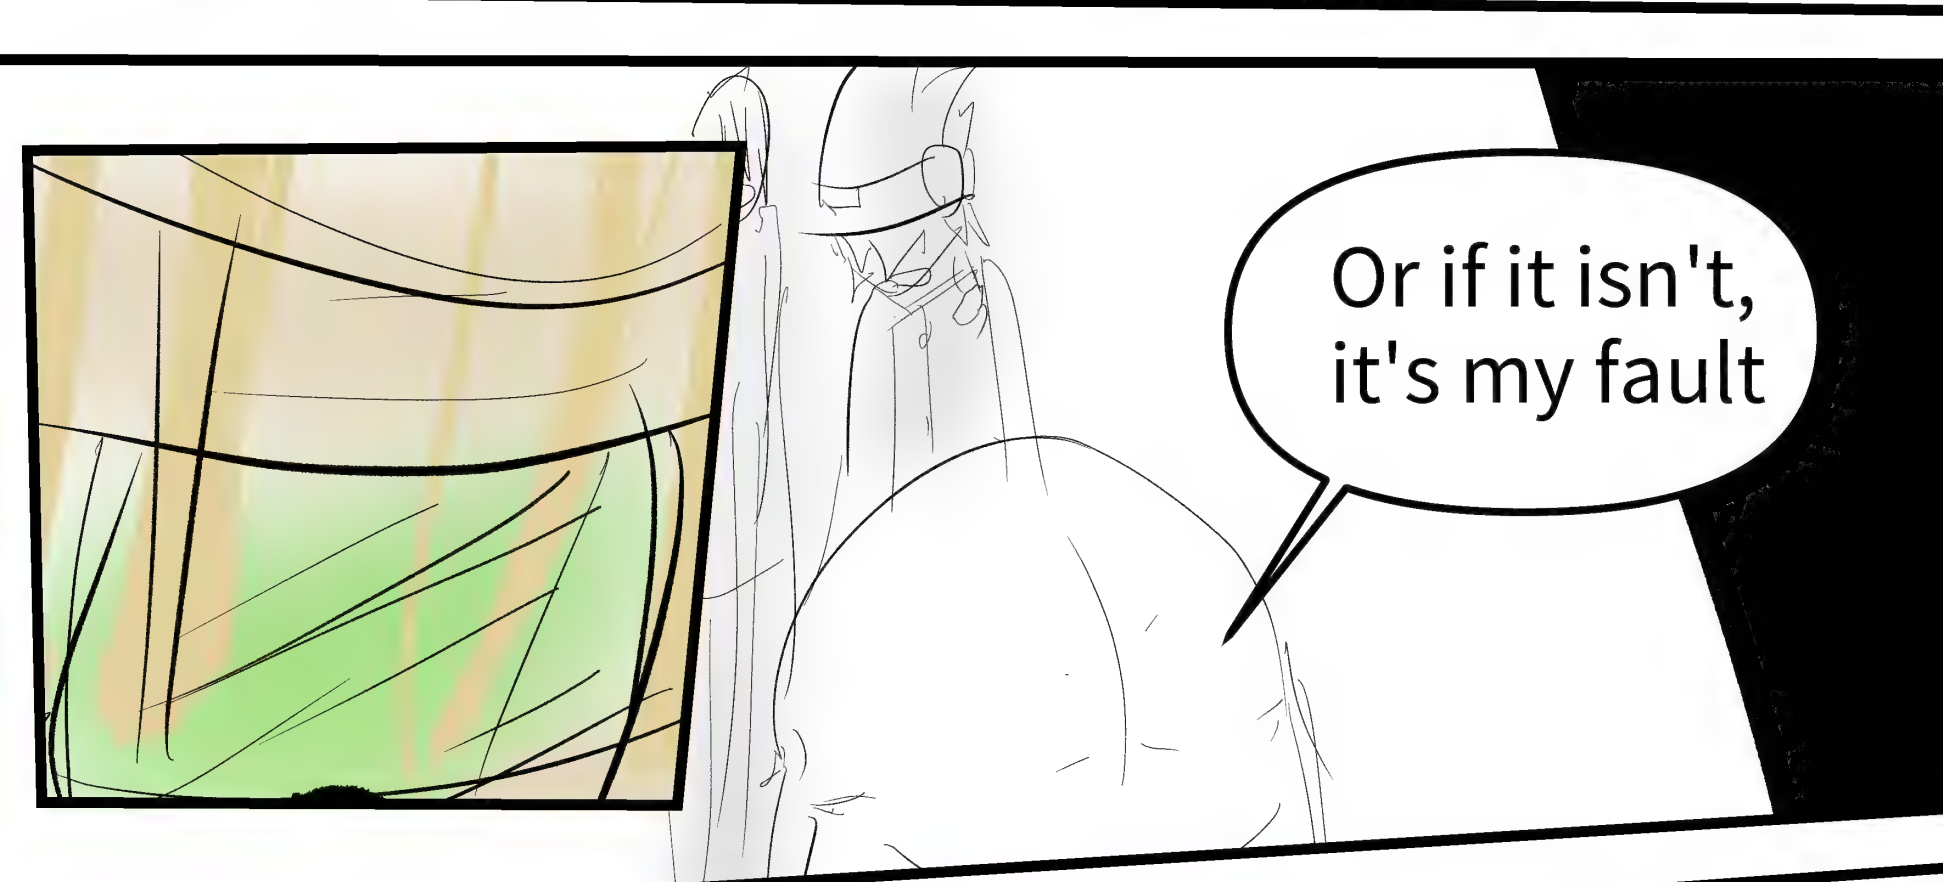

sniff

He didn't
anything,
nobody did!

Only I,
like
always
now...

the Maka
that smacked
the kishin,
the Maka
that I know-

The Maka
you know?

cut the
crap!

I doubt she ever existed
Just a "brave" face to
hide a spoiled brat

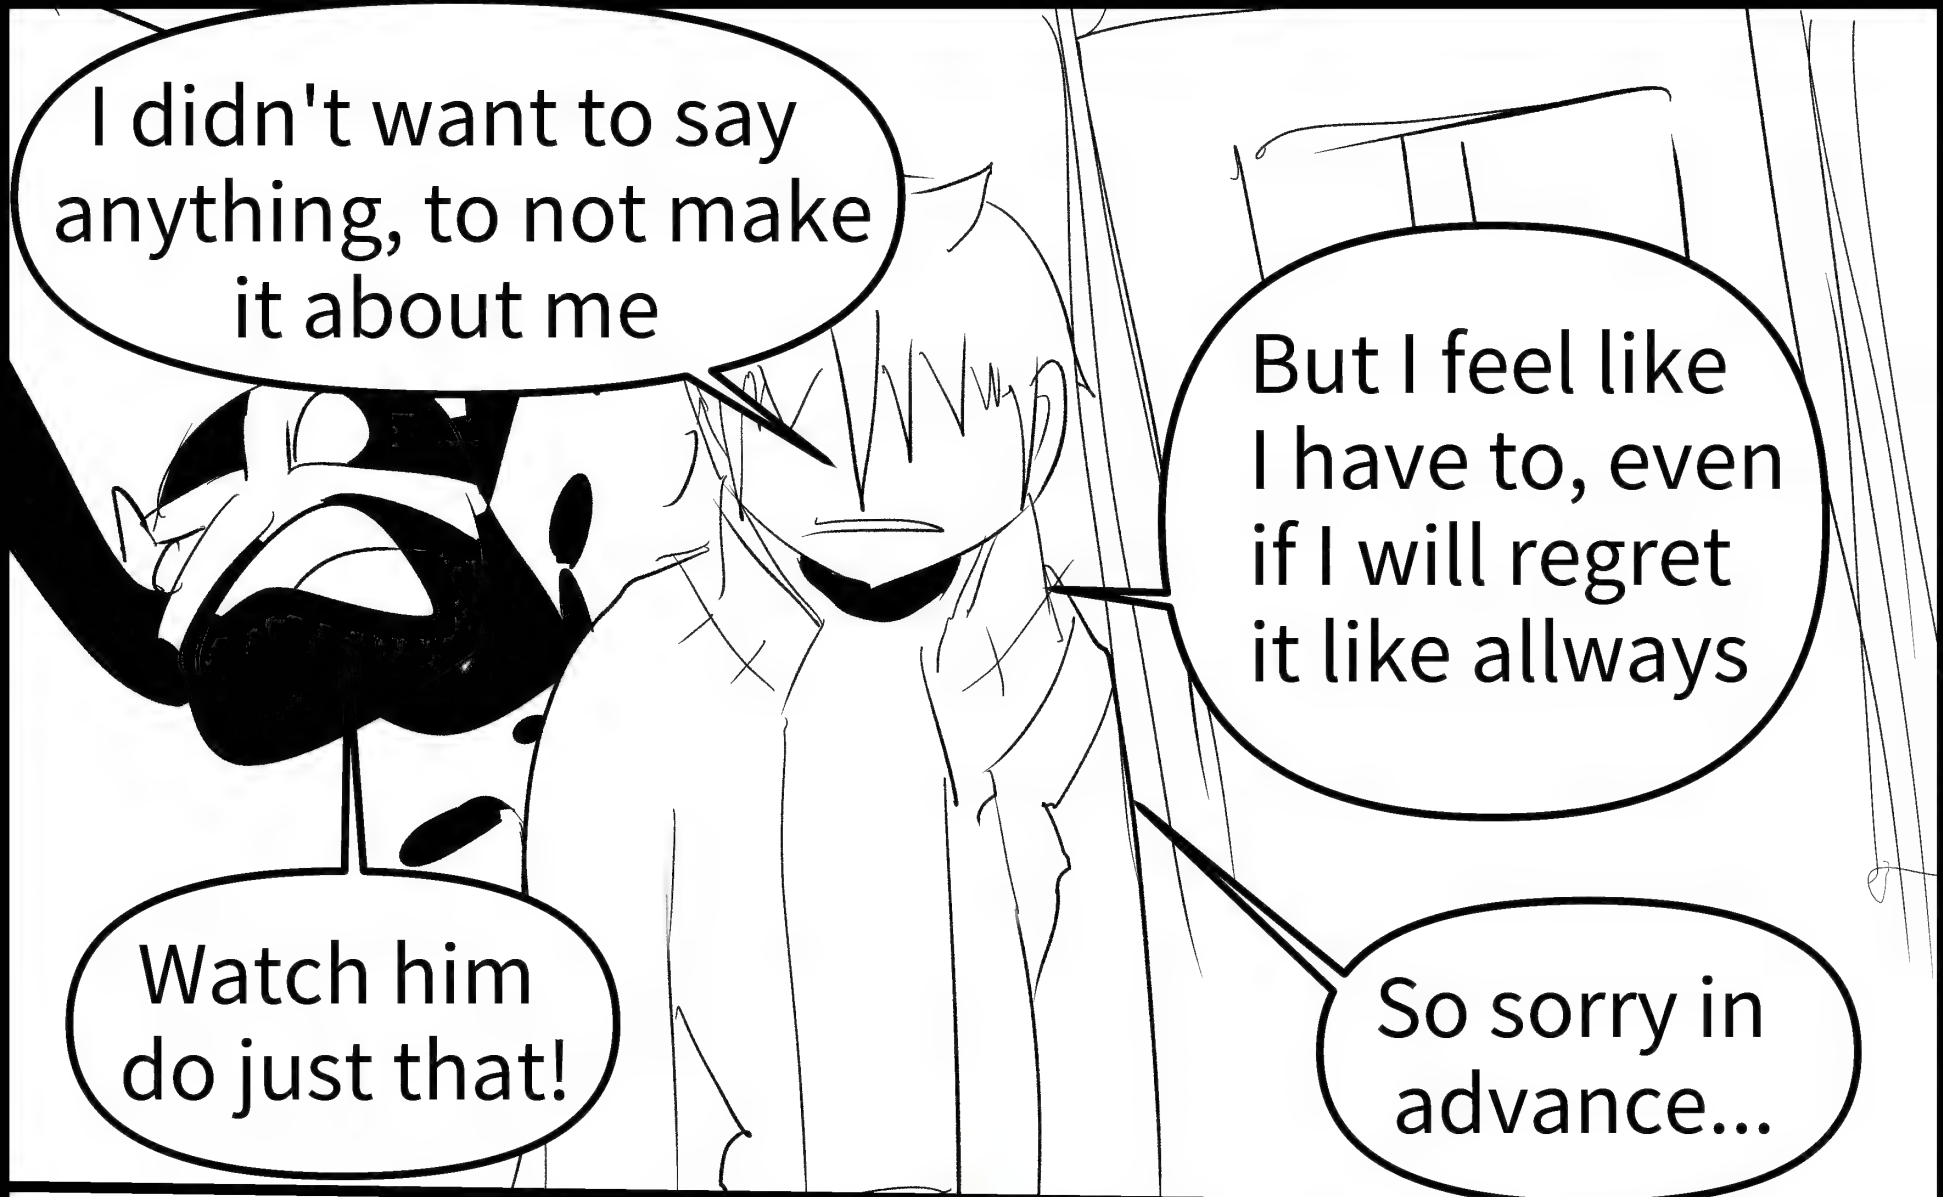

Face fear? When
I'm even scared
of just growing
apart from you

I'm just a boring
dork, less hip than
even Lord Death

I really
am naive...

Thinking only I
can feel like that

huh?

I didn't want to say anything, to not make it about me

But I feel like I have to, even if I will regret it like allways

Watch him do just that!

So sorry in advance...

When the stuff with the snake happened...

I saw things...

Had horrible visions and realizations

That I was what I thought - a horrible mistake that only ruins things and somehow makes them even worse, worthless and undeserving

I'm too much of a
piece of shit to feel
guilty and undeserving
about being it"

That's what I told myself

I knew that was a
horrible way to cope:
so perfect for a wreck
like me

Someone so bad, he doesn't even know
what he was trying to say anymore...

Maybe that, if someone like me can deal
with doubt, even in such a bad way...

Someone as wonderful
as you will be able to deal
with it the right way

Yeah, come on Maka,
we all freak out
sometimes

Like even with
all the brain
damage from
your chops, you
trusted in me
when it mattered,
so don't
overthink it
and stay cool

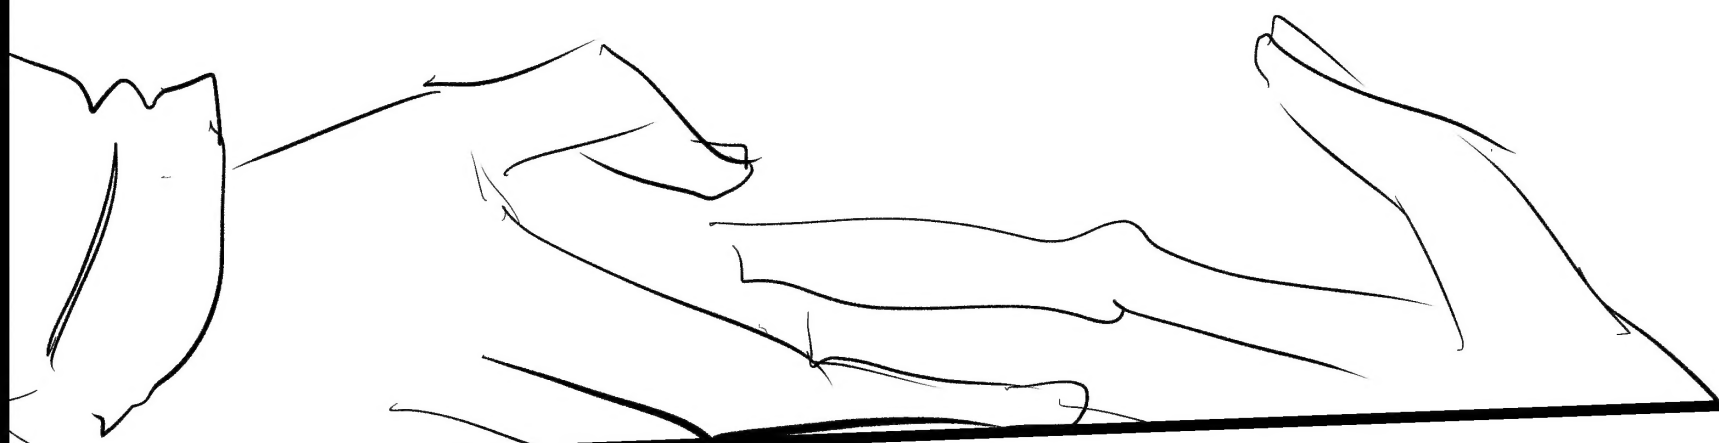

Hm, now I
only need
to say
something
comedic
to break the
tension

"Your
mom!"

SLAP

RAGNAROK!

Ah fuck, I forgot that sorespot was literally the worst thing to say!

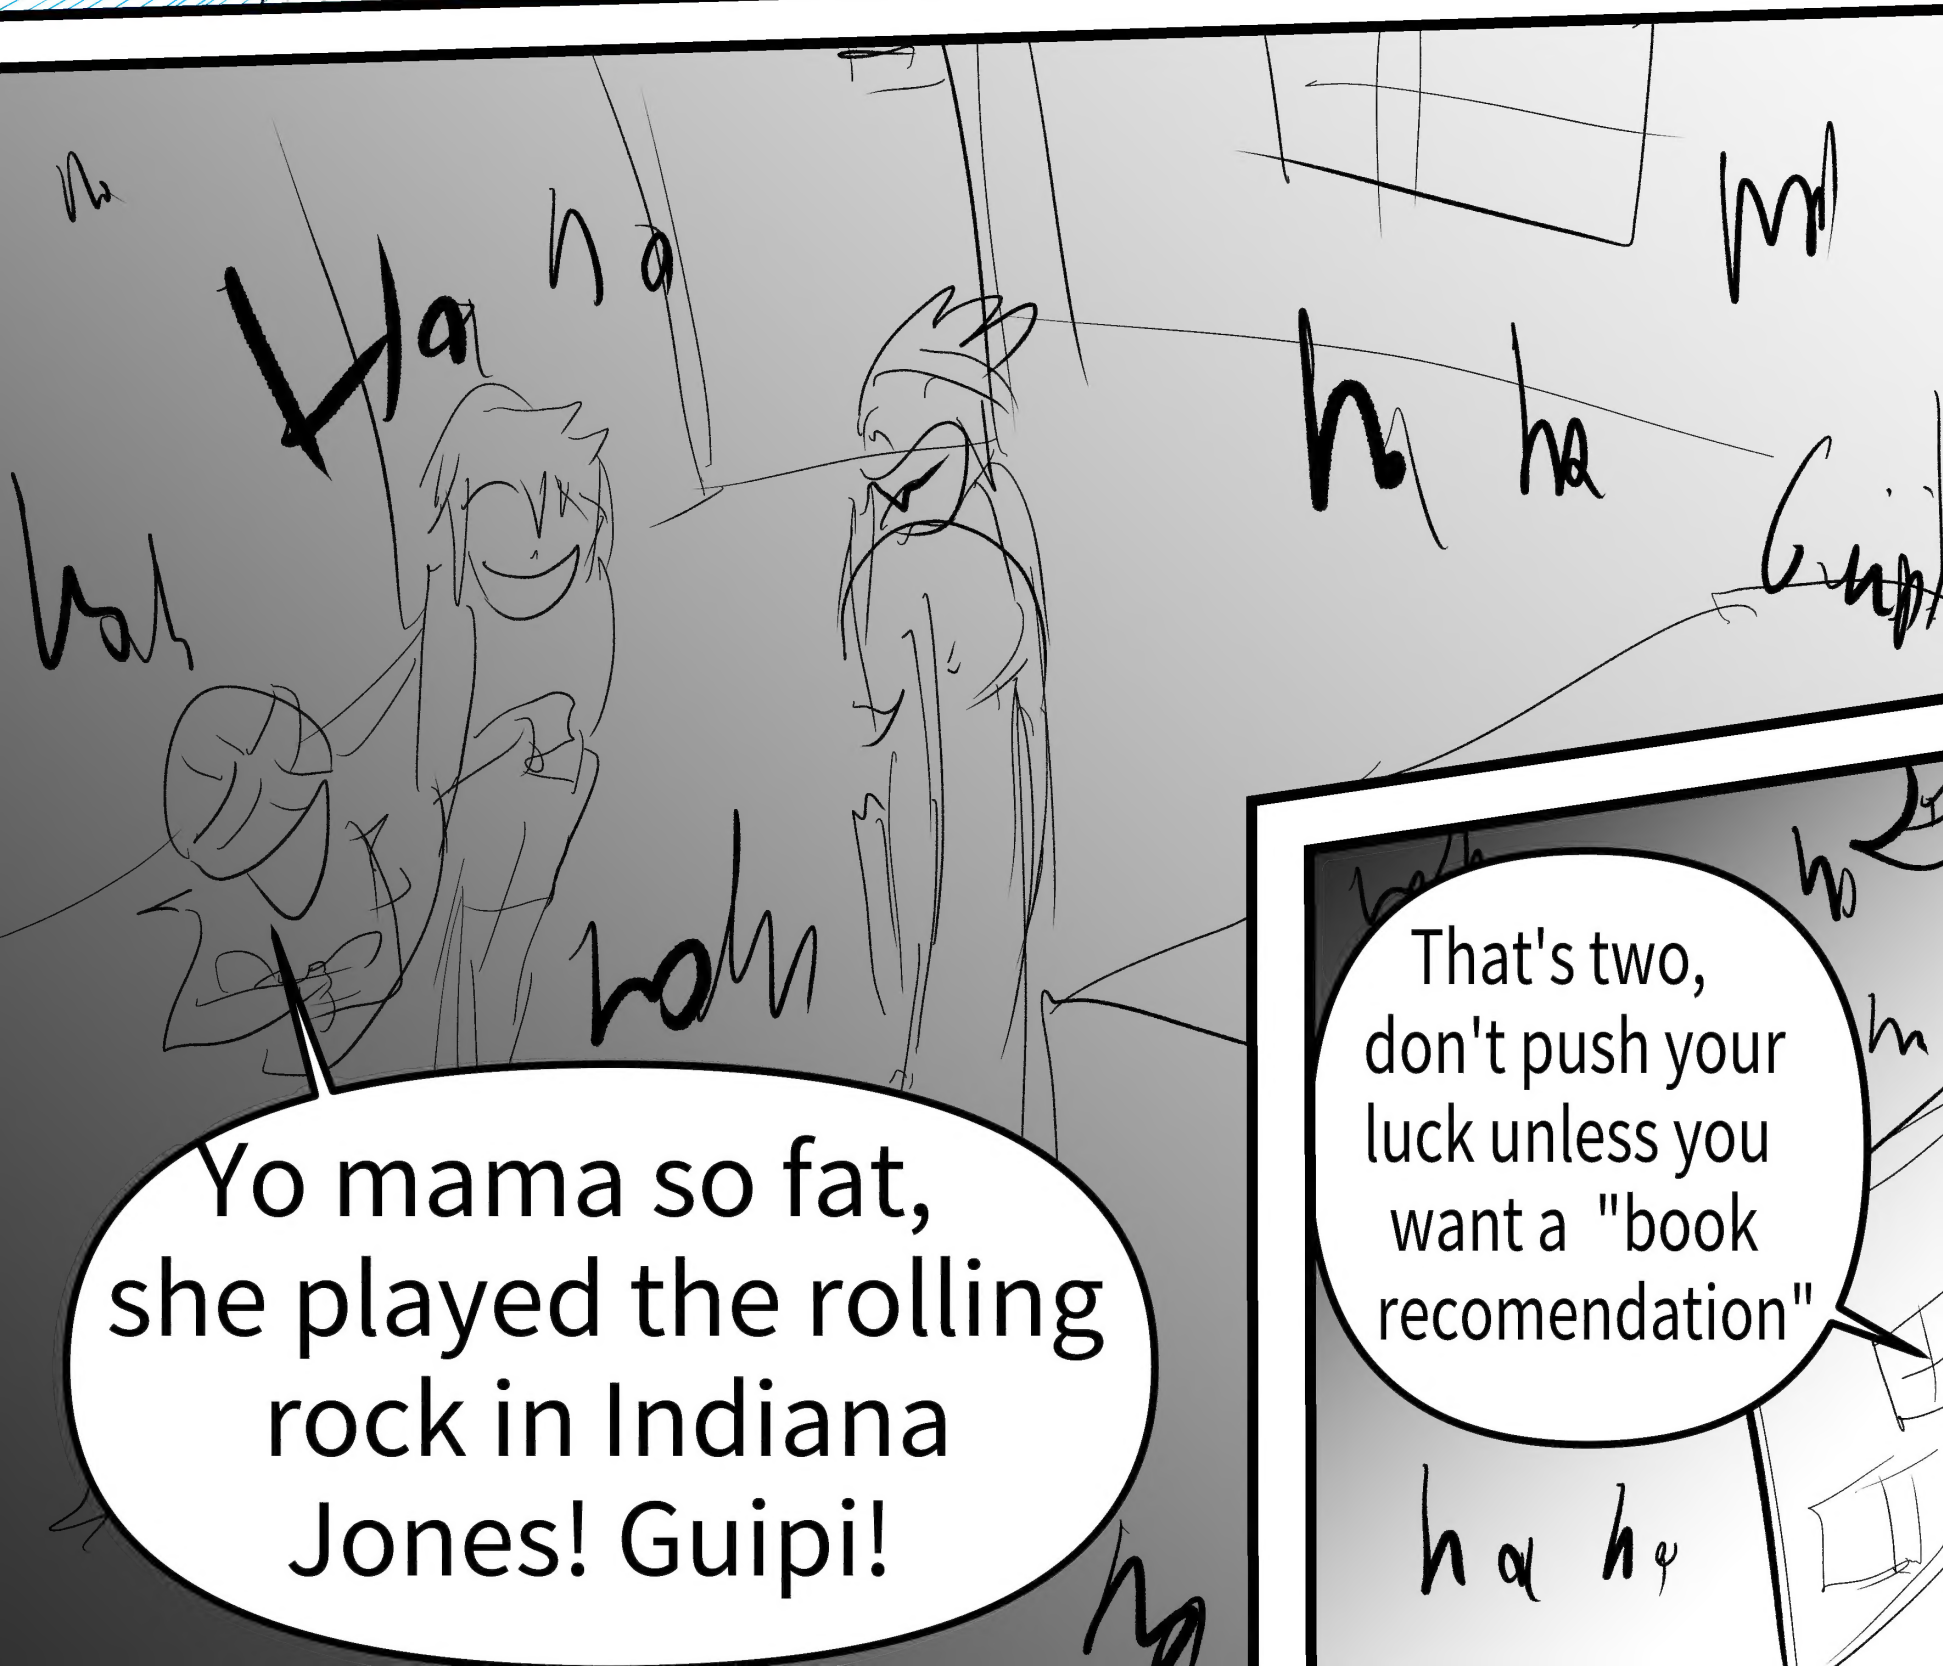

Don't worry, after how I acted ...

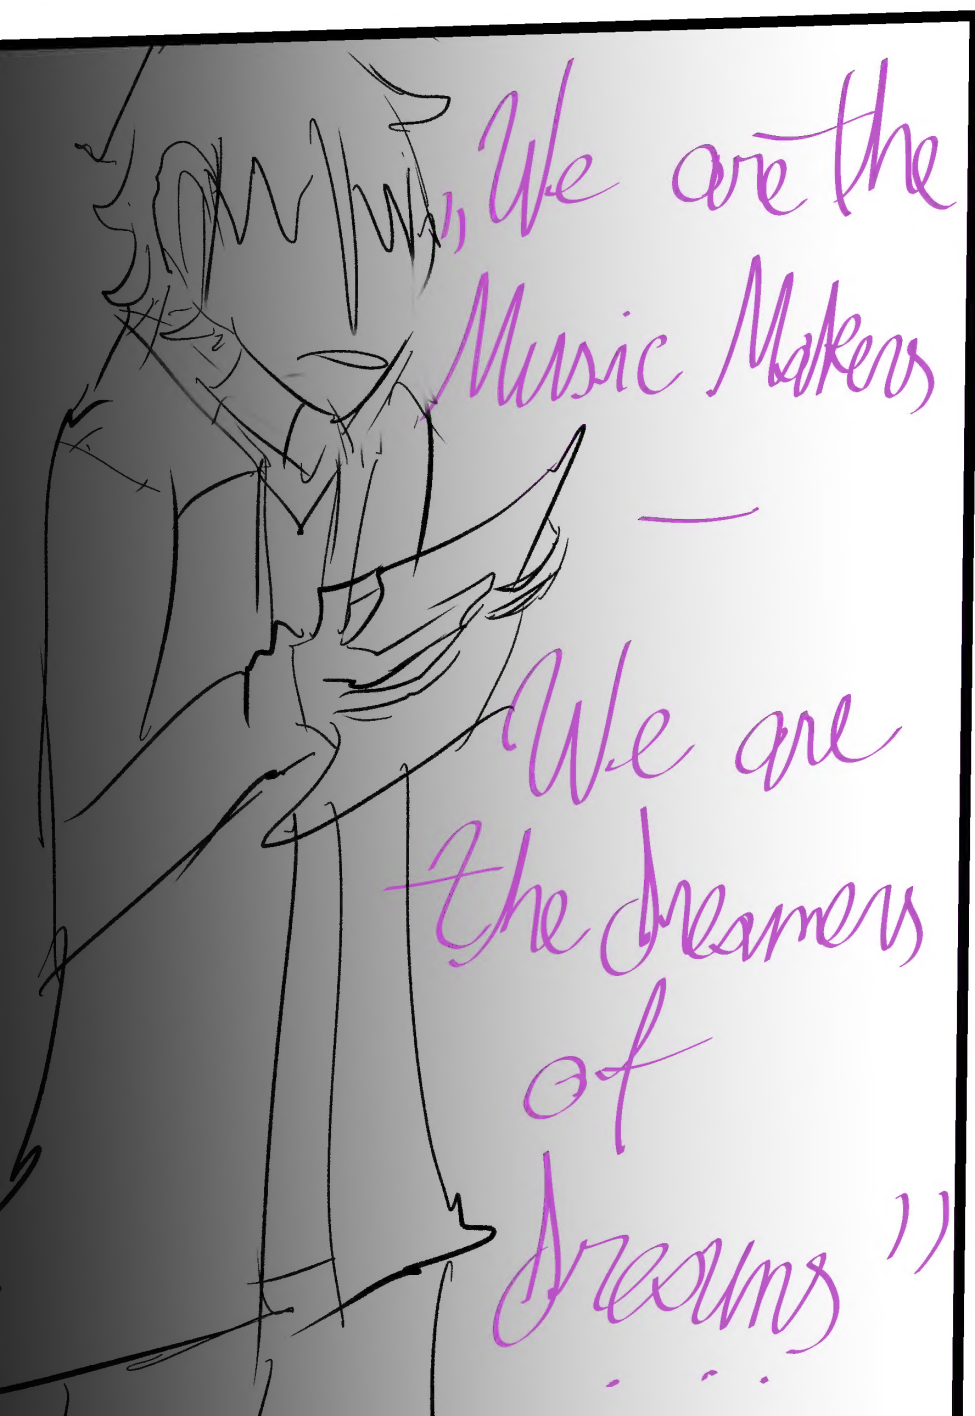

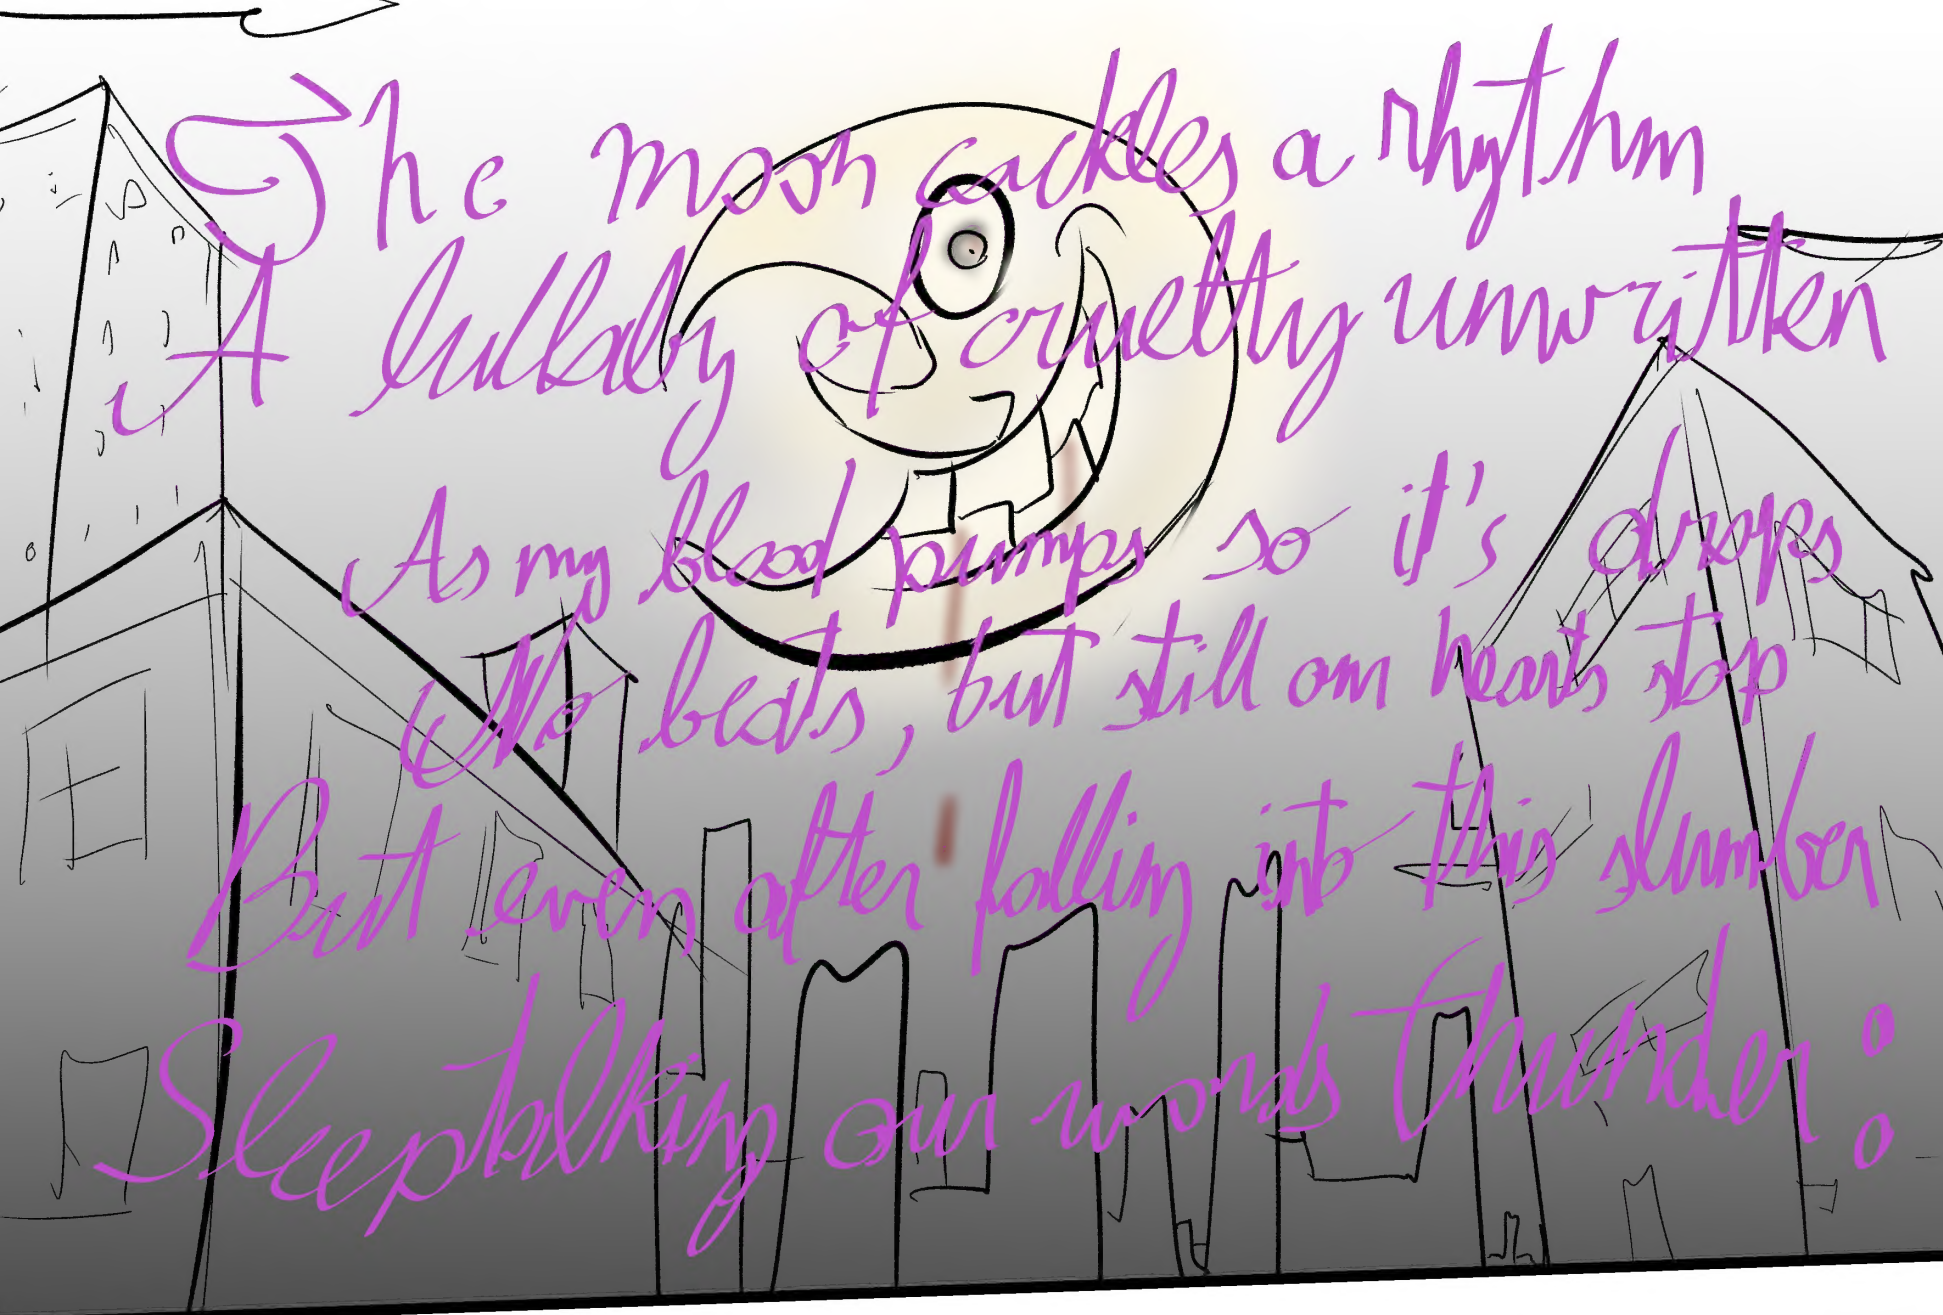

I deserve one, go mama!

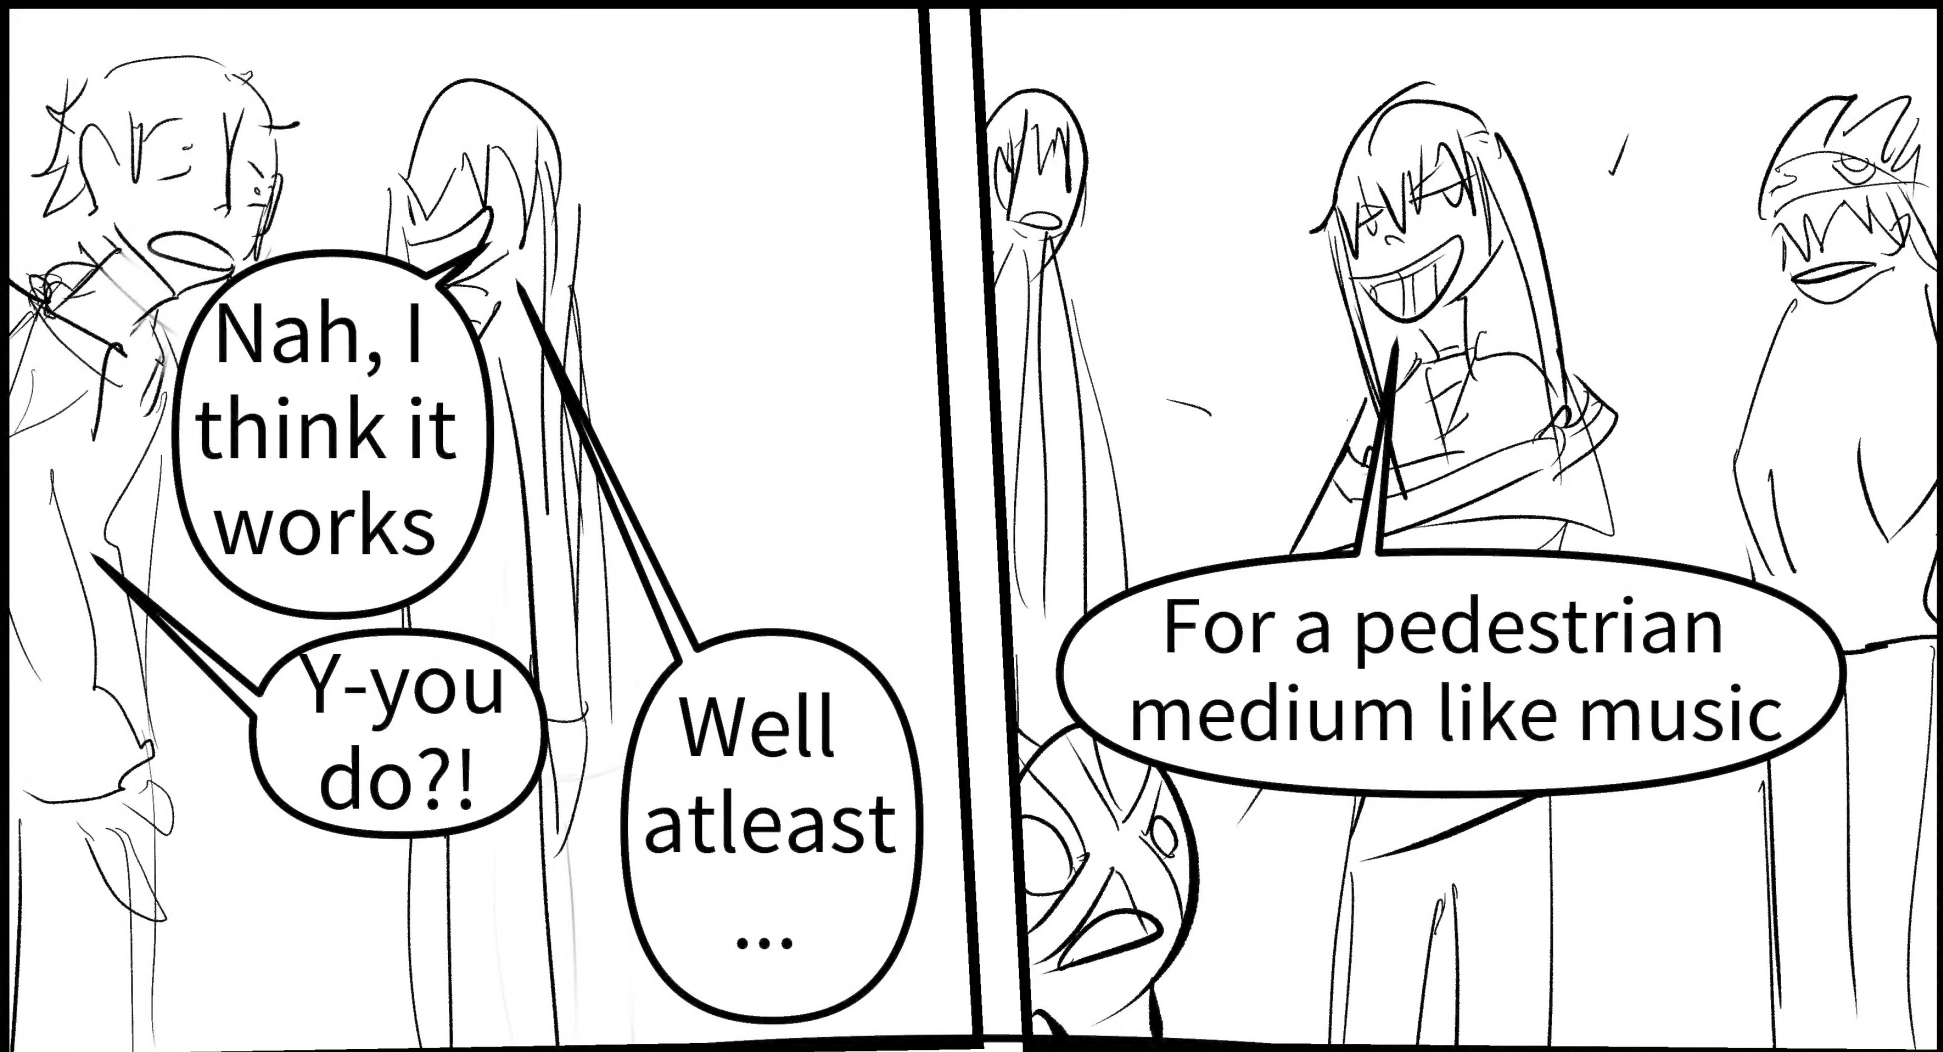

oke, heh

Yo mama so fat,
she played the rolling
rock in Indiana
Jones! Guipi!

That's two,
don't push your
luck unless you
want a "book
recomendation"

Nah, I think it works

Y-you do?!

Well atleast ...

For a pedestrian medium like music

Whatever, enough of this "being creative" shit, time to watch TV!

Chapter
END 47

yeah...

The great equalizer...

Yeah, all equal in the gaze of the silver screen...

Pretending anything got solved. escaping the true reality...
